Exposure Draft

Indian Accounting Standard (Ind AS) 116
Leases

(Last date for Comments: August 31, 2017)

Issued by
Accounting Standards Board
The Institute of Chartered Accountants of India
Exposure Draft  
Ind AS 116 Leases  

Following is the Exposure Draft of the Ind AS 116, Leases, issued by the Accounting Standards Board of the Institute of Chartered Accountants of India, for comments. The Board invites comments on any aspect of this Exposure Draft. Comments are most helpful if they indicate the specific paragraph or group of paragraphs to which they relate, contain a clear rationale and, where applicable, provide suggestions for alternative wording.

How to comment

Comments can be submitted using one of the following methods, so as to be received not later than August 31, 2017.

1. Electronically: Visit the following link  
   http://www.icai.org/comments/asb/ (Preferred method)

2. Email: Comments can be sent to commentsasb@icai.in

3. Postal: Secretary, Accounting Standards Board,  
The Institute of Chartered Accountants of India,  
ICAI Bhawan, Post Box No. 7100,  
Indraprastha Marg, New Delhi – 110002.

Further clarifications on any aspect of this Exposure Draft may be sought by e-mail to asb@icai.in.
Introduction

1. Indian Accounting Standard 116, *Leases* (Ind AS 116) sets out the principles for the recognition, measurement, presentation and disclosure of leases. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of the entity.

2. Ind AS 116 is proposed to be effective from annual periods beginning on or after 1st April, 2019.

4. Major changes from Ind AS 17, *Leases*, are as follows:
   - The definition of a lease in Ind AS 116 has certain differences compared to definition of lease given in Ind AS 17.
   - **Lessee Accounting**
     - Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Ind AS 17 required to classify leases as finance lease and operating lease.
     - Under Ind AS 116, a lessee measures right-of-use assets similarly to other non-financial assets (such as property, plant and equipment) and lease liabilities similarly to other financial liabilities. As a consequence, a lessee recognises depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows applying Ind AS 7, *Statement of Cash Flows*. Under Ind AS 17, for operating leases, lessee is required to recognise the lease payments as an expense on a straight-line basis unless another systematic basis is representative of the time pattern of the user’s benefit.
     - Ind AS 116 requires detailed disclosure for lessees as compared to Ind AS 17.
   - **Lessor Accounting**
     - Requirements with regard to lessor accounting are substantially similar to accounting requirements contained in Ind AS 17. Accordingly, a
lesser will continue to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

- Ind AS 116 contains additional disclosure requirements for lessors as compared to Ind AS 17, such as, disclosure of maturity analysis of lease payments; quantitative and qualitative explanation of significant changes in carrying amount of new investment in finance leases etc.

- Ind AS 116 contains specific provision for lease modification for lessor and lessee. Ind AS 17 does not specifically provide how to account for lease modification.
Indian Accounting Standard (Ind AS) 116 Leases

(This Indian Accounting Standard includes paragraphs set in bold type and plain type, which have equal authority. Paragraphs in bold type indicate the main principles)

Objective

1. This Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

2. An entity shall consider the terms and conditions of contracts and all relevant facts and circumstances when applying this Standard. An entity shall apply this Standard consistently to contracts with similar characteristics and in similar circumstances.

Scope

3. An entity shall apply this Standard to all leases, including leases of right-of-use assets in a sublease, except for:

   (a) leases to explore for or use minerals, oil, natural gas and similar non-regenerative resources;

   (b) leases of biological assets within the scope of Ind AS 41, Agriculture, held by a lessee;

   (c) service concession arrangements within the scope of Appendix D, Service Concession Arrangements, of Ind AS 115, Revenue from Contracts with Customer;

   (d) licences of intellectual property granted by a lessor within the scope of Ind AS 115, Revenue from Contracts with Customers; and

   (e) rights held by a lessee under licensing agreements within the scope of Ind AS 38, Intangible Assets, for such items as motion picture films, video recordings, plays, manuscripts, patents and copyrights.

4. A lessee may, but is not required to, apply this Standard to leases of intangible assets other than those described in paragraph 3(e).

Recognition exemptions (paragraphs B3–B8)

5. A lessee may elect not to apply the requirements in paragraphs 22–49 to:
(a) short-term leases; and

(b) leases for which the underlying asset is of low value (as described in paragraphs B3–B8).

6 If a lessee elects not to apply the requirements in paragraphs 22–49 to either short-term leases or leases for which the underlying asset is of low value, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee’s benefit.

7 If a lessee accounts for short-term leases applying paragraph 6, the lessee shall consider the lease to be a new lease for the purposes of this Standard if:

(a) there is a lease modification; or

(b) there is any change in the lease term (for example, the lessee exercises an option not previously included in its determination of the lease term).

8 The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in an entity’s operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

Identifying a lease (paragraphs B9–B33)

9 At inception of a contract, an entity shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Paragraphs B9–B31 set out guidance on the assessment of whether a contract is, or contains, a lease.

10 A period of time may be described in terms of the amount of use of an identified asset (for example, the number of production units that an item of equipment will be used to produce).

11 An entity shall reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

Separating components of a contract

12 For a contract that is, or contains, a lease, an entity shall account for each lease component within the contract as a lease separately from non-lease components of the contract, unless the entity applies the practical expedient in paragraph 15. Paragraphs B32–B33 set out guidance on separating
components of a contract.

**Lessee**

13 For a contract that contains a lease component and one or more additional lease or non-lease components, a lessee shall allocate the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

14 The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge an entity for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the lessee shall estimate the stand-alone price, maximising the use of observable information.

15 As a practical expedient, a lessee may elect, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component. A lessee shall not apply this practical expedient to embedded derivatives that meet the criteria in paragraph 4.3.3 of Ind AS 109, *Financial Instruments*.

16 Unless the practical expedient in paragraph 15 is applied, a lessee shall account for non-lease components applying other applicable Standards.

**Lessor**

17 For a contract that contains a lease component and one or more additional lease or non-lease components, a lessor shall allocate the consideration in the contract applying paragraphs 73–90 of Ind AS 115.

**Lease term (paragraphs B34–B41)**

18 An entity shall determine the lease term as the non-cancellable period of a lease, together with both:

(a) periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and

(b) periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

19 In assessing whether a lessee is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, an entity shall consider all relevant facts and circumstances that create an economic incentive for the lessee to exercise the option to extend the lease, or not to exercise the option to terminate the lease, as described in paragraphs B37–
B40.

20 A lessee shall reassess whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that:

(a) is within the control of the lessee; and

(b) affects whether the lessee is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term (as described in paragraph B41).

21 An entity shall revise the lease term if there is a change in the non-cancellable period of a lease. For example, the non-cancellable period of a lease will change if:

(a) the lessee exercises an option not previously included in the entity’s determination of the lease term;

(b) the lessee does not exercise an option previously included in the entity’s determination of the lease term;

(c) an event occurs that contractually obliges the lessee to exercise an option not previously included in the entity’s determination of the lease term; or

(d) an event occurs that contractually prohibits the lessee from exercising an option previously included in the entity’s determination of the lease term.

Lessee

Recognition

22 At the commencement date, a lessee shall recognise a right-of-use asset and a lease liability.

Measurement

Initial measurement

Initial measurement of the right-of-use asset

23 At the commencement date, a lessee shall measure the right-of-use asset at cost.

24 The cost of the right-of-use asset shall comprise:
(a) the amount of the initial measurement of the lease liability, as described in paragraph 26;

(b) any lease payments made at or before the commencement date, less any lease incentives received;

(c) any initial direct costs incurred by the lessee; and

(d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

25 A lessee shall recognise the costs described in paragraph 24(d) as part of the cost of the right-of-use asset when it incurs an obligation for those costs. A lessee applies Ind AS 2, Inventories, to costs that are incurred during a particular period as a consequence of having used the right-of-use asset to produce inventories during that period. The obligations for such costs accounted for applying this Standard or Ind AS 2 are recognised and measured applying Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets.

Initial measurement of the lease liability

26 At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee’s incremental borrowing rate.

27 At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

(a) fixed payments (including in-substance fixed payments as described in paragraph B42), less any lease incentives receivable;

(b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date (as described in paragraph 28);

(c) amounts expected to be payable by the lessee under residual value guarantees;
(d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option (assessed considering the factors described in paragraphs B37–B40); and

(e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

28 Variable lease payments that depend on an index or a rate described in paragraph 27(b) include, for example, payments linked to a consumer price index, payments linked to a benchmark interest rate (such as LIBOR) or payments that vary to reflect changes in market rental rates.

Subsequent measurement

Subsequent measurement of the right-of-use asset

29 After the commencement date, a lessee shall measure the right-of-use asset applying a cost model, unless it applies the measurement model described in paragraph 35.

Cost model

30 To apply a cost model, a lessee shall measure the right-of-use asset at cost:

(a) less any accumulated depreciation and any accumulated impairment losses; and

(b) adjusted for any remeasurement of the lease liability specified in paragraph 36(c).

31 A lessee shall apply the depreciation requirements in Ind AS 16, Property, Plant and Equipment, in depreciating the right-of-use asset, subject to the requirements in paragraph 32.

32 If the lease transfers ownership of the underlying asset to the lessee by the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the lessee shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

33 A lessee shall apply Ind AS 36, Impairment of Assets, to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.
Other measurement models

34 [Refer Appendix 1].

35 If right-of-use assets relate to a class of property, plant and equipment to which the lessee applies the revaluation model in Ind AS 16, a lessee may elect to apply that revaluation model to all of the right-of-use assets that relate to that class of property, plant and equipment.

Subsequent measurement of the lease liability

36 After the commencement date, a lessee shall measure the lease liability by:

(a) increasing the carrying amount to reflect interest on the lease liability;

(b) reducing the carrying amount to reflect the lease payments made; and

(c) remeasuring the carrying amount to reflect any reassessment or lease modifications specified in paragraphs 39–46, or to reflect revised in-substance fixed lease payments (see paragraph B42).

37 Interest on the lease liability in each period during the lease term shall be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability. The periodic rate of interest is the discount rate described in paragraph 26, or if applicable the revised discount rate described in paragraph 41, paragraph 43 or paragraph 45(c).

38 After the commencement date, a lessee shall recognise in profit or loss, unless the costs are included in the carrying amount of another asset applying other applicable Standards, both:

(a) interest on the lease liability; and

(b) variable lease payments not included in the measurement of the lease liability in the period in which the event or condition that triggers those payments occurs.

Reassessment of the lease liability

39 After the commencement date, a lessee shall apply paragraphs 40–43 to remeasure the lease liability to reflect changes to the lease payments. A lessee shall recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, a lessee shall recognise any remaining amount of the remeasurement in profit or loss.
A lessee shall remeasure the lease liability by discounting the revised lease payments using a revised discount rate, if either:

(a) there is a change in the lease term, as described in paragraphs 20–21. A lessee shall determine the revised lease payments on the basis of the revised lease term; or

(b) there is a change in the assessment of an option to purchase the underlying asset, assessed considering the events and circumstances described in paragraphs 20–21 in the context of a purchase option. A lessee shall determine the revised lease payments to reflect the change in amounts payable under the purchase option.

In applying paragraph 40, a lessee shall determine the revised discount rate as the interest rate implicit in the lease for the remainder of the lease term, if that rate can be readily determined, or the lessee’s incremental borrowing rate at the date of reassessment, if the interest rate implicit in the lease cannot be readily determined.

A lessee shall remeasure the lease liability by discounting the revised lease payments, if either:

(a) there is a change in the amounts expected to be payable under a residual value guarantee. A lessee shall determine the revised lease payments to reflect the change in amounts expected to be payable under the residual value guarantee.

(b) there is a change in future lease payments resulting from a change in an index or a rate used to determine those payments, including for example a change to reflect changes in market rental rates following a market rent review. The lessee shall remeasure the lease liability to reflect those revised lease payments only when there is a change in the cash flows (ie when the adjustment to the lease payments takes effect). A lessee shall determine the revised lease payments for the remainder of the lease term based on the revised contractual payments.

In applying paragraph 42, a lessee shall use an unchanged discount rate, unless the change in lease payments results from a change in floating interest rates. In that case, the lessee shall use a revised discount rate that reflects changes in the interest rate.

Lease modifications

A lessee shall account for a lease modification as a separate lease if both:

(a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
(b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

45 For a lease modification that is not accounted for as a separate lease, at the *effective date of the lease modification* a lessee shall:

(a) allocate the consideration in the modified contract applying paragraphs 13–16;

(b) determine the lease term of the modified lease applying paragraphs 18–19; and

(c) remeasure the lease liability by discounting the revised lease payments using a revised discount rate. The revised discount rate is determined as the interest rate implicit in the lease for the remainder of the lease term, if that rate can be readily determined, or the lessee’s incremental borrowing rate at the effective date of the modification, if the interest rate implicit in the lease cannot be readily determined.

46 For a lease modification that is not accounted for as a separate lease, the lessee shall account for the remeasurement of the lease liability by:

(a) decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The lessee shall recognise in profit or loss any gain or loss relating to the partial or full termination of the lease.

(b) making a corresponding adjustment to the right-of-use asset for all other lease modifications.

**Presentation**

47 A lessee shall either present in the balance sheet, or disclose in the notes:

(a) right-of-use assets separately from other assets.

(b) lease liabilities separately from other liabilities.

48 The requirement in paragraph 47(a) does not apply to right-of-use assets that meet the definition of investment property, which shall be presented in the balance sheet as investment property.

49 In the statement of profit and loss, a lessee shall present interest expense on the lease liability separately from the depreciation charge for the right-of-use asset. Interest expense on the lease liability is a component of finance costs,
which paragraph 82(b) of Ind AS 1, Presentation of Financial Statements, requires to be presented separately in the statement of profit and loss.

50 In the statement of cash flows, a lessee shall classify:

(a) cash payments for the principal portion of the lease liability within financing activities;

(b) cash payments for the interest portion of the lease liability within financing activities applying the requirements in Ind AS 7, Statement of Cash Flows, for interest paid; and

(c) short-term lease payments, payments for leases of low-value assets and variable lease payments not included in the measurement of the lease liability within operating activities.

Disclosure

51 The objective of the disclosures is for lessees to disclose information in the notes that, together with the information provided in the balance sheet, statement of profit and loss and statement of cash flows, gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of the lessee. Paragraphs 52–60 specify requirements on how to meet this objective.

52 A lessee shall disclose information about its leases for which it is a lessee in a single note or separate section in its financial statements. However, a lessee need not duplicate information that is already presented elsewhere in the financial statements, provided that the information is incorporated by cross-reference in the single note or separate section about leases.

53 A lessee shall disclose the following amounts for the reporting period:

(a) depreciation charge for right-of-use assets by class of underlying asset;

(b) interest expense on lease liabilities;

(c) the expense relating to short-term leases accounted for applying paragraph 6. This expense need not include the expense relating to leases with a lease term of one month or less;

(d) the expense relating to leases of low-value assets accounted for applying paragraph 6. This expense shall not include the expense relating to short-term leases of low-value assets included in paragraph 53(c);

(e) the expense relating to variable lease payments not included in the
measurement of lease liabilities;

(f) income from subleasing right-of-use assets;

(g) total cash outflow for leases;

(h) additions to right-of-use assets;

(i) gains or losses arising from sale and leaseback transactions; and

(j) the carrying amount of right-of-use assets at the end of the reporting period by class of underlying asset.

54 A lessee shall provide the disclosures specified in paragraph 53 in a tabular format, unless another format is more appropriate. The amounts disclosed shall include costs that a lessee has included in the carrying amount of another asset during the reporting period.

55 A lessee shall disclose the amount of its lease commitments for short-term leases accounted for applying paragraph 6 if the portfolio of short-term leases to which it is committed at the end of the reporting period is dissimilar to the portfolio of short-term leases to which the short-term lease expense disclosed applying paragraph 53(c) relates.

56 If right-of-use assets meet the definition of investment property, a lessee shall apply the disclosure requirements in Ind AS 40. In that case, a lessee is not required to provide the disclosures in paragraph 53(a), (f), (h) or (j) for those right-of-use assets.

57 If a lessee measures right-of-use assets at revalued amounts applying Ind AS 16, the lessee shall disclose the information required by paragraph 77 of Ind AS 16 for those right-of-use assets.

58 A lessee shall disclose a maturity analysis of lease liabilities applying paragraphs 39 and B11 of Ind AS 107, Financial Instruments: Disclosures, separately from the maturity analyses of other financial liabilities.

59 In addition to the disclosures required in paragraphs 53–58, a lessee shall disclose additional qualitative and quantitative information about its leasing activities necessary to meet the disclosure objective in paragraph 51 (as described in paragraph B48). This additional information may include, but is not limited to, information that helps users of financial statements to assess:

(a) the nature of the lessee’s leasing activities;

(b) future cash outflows to which the lessee is potentially exposed that are not reflected in the measurement of lease liabilities. This includes exposure arising from:
(i) variable lease payments (as described in paragraph B49);

(ii) extension options and termination options (as described in paragraph B50);

(iii) residual value guarantees (as described in paragraph B51); and

(iv) leases not yet commenced to which the lessee is committed.

(c) restrictions or covenants imposed by leases; and

(d) sale and leaseback transactions (as described in paragraph B52).

60 A lessee that accounts for short-term leases or leases of low-value assets applying paragraph 6 shall disclose that fact.

Lessor

Classification of leases (paragraphs B53–B58)

61 A lessor shall classify each of its leases as either an operating lease or a finance lease.

62 A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

63 Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. Examples of situations that individually or in combination would normally lead to a lease being classified as a finance lease are:

(a) the lease transfers ownership of the underlying asset to the lessee by the end of the lease term;

(b) the lessee has the option to purchase the underlying asset at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable for it to be reasonably certain, at the inception date, that the option will be exercised;

(c) the lease term is for the major part of the economic life of the underlying asset even if title is not transferred;

(d) at the inception date, the present value of the lease payments amounts to at least substantially all of the fair value of the underlying asset; and
the underlying asset is of such a specialised nature that only the lessee can use it without major modifications.

64 Indicators of situations that individually or in combination could also lead to a lease being classified as a finance lease are:

(a) if the lessee can cancel the lease, the lessor’s losses associated with the cancellation are borne by the lessee;

(b) gains or losses from the fluctuation in the fair value of the residual accrue to the lessee (for example, in the form of a rent rebate equaling most of the sales proceeds at the end of the lease); and

(c) the lessee has the ability to continue the lease for a secondary period at a rent that is substantially lower than market rent.

65 The examples and indicators in paragraphs 63–64 are not always conclusive. If it is clear from other features that the lease does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset, the lease is classified as an operating lease. For example, this may be the case if ownership of the underlying asset transfers at the end of the lease for a variable payment equal to its then fair value, or if there are variable lease payments, as a result of which the lessor does not transfer substantially all such risks and rewards.

66 Lease classification is made at the inception date and is reassessed only if there is a lease modification. Changes in estimates (for example, changes in estimates of the economic life or of the residual value of the underlying asset), or changes in circumstances (for example, default by the lessee), do not give rise to a new classification of a lease for accounting purposes.

Finance leases

Recognition and measurement

67 At the commencement date, a lessor shall recognise assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

Initial measurement

68 The lessor shall use the interest rate implicit in the lease to measure the net investment in the lease. In the case of a sublease, if the interest rate implicit in the sublease cannot be readily determined, an intermediate lessor may use the discount rate used for the head lease (adjusted for any initial direct costs associated with the sublease) to measure the net investment in the sublease.

69 Initial direct costs, other than those incurred by manufacturer or dealer
lessors, are included in the initial measurement of the net investment in the
lease and reduce the amount of income recognised over the lease term. The
interest rate implicit in the lease is defined in such a way that the initial
direct costs are included automatically in the net investment in the lease;
there is no need to add them separately.

**Initial measurement of the lease payments included in the net investment in the lease**

70 At the commencement date, the lease payments included in the measurement
of the net investment in the lease comprise the following payments for the
right to use the underlying asset during the lease term that are not received at
the commencement date:

(a) fixed payments (including in-substance fixed payments as described
in paragraph B42), less any lease incentives payable;

(b) variable lease payments that depend on an index or a rate, initially
measured using the index or rate as at the commencement date;

(c) any residual value guarantees provided to the lessor by the lessee, a
party related to the lessee or a third party unrelated to the lessor that
is financially capable of discharging the obligations under the
guarantee;

(d) the exercise price of a purchase option if the lessee is reasonably
certain to exercise that option (assessed considering the factors
described in paragraph B37); and

(e) payments of penalties for terminating the lease, if the lease term
reflects the lessee exercising an option to terminate the lease.

**Manufacturer or dealer lessors**

71 At the commencement date, a manufacturer or dealer lessor shall recognise
the following for each of its finance leases:

(a) revenue being the fair value of the underlying asset, or, if lower, the
present value of the lease payments accruing to the lessor, discounted
using a market rate of interest;

(b) the cost of sale being the cost, or carrying amount if different, of the
underlying asset less the present value of the unguaranteed residual
value; and

(c) selling profit or loss (being the difference between revenue and the
cost of sale) in accordance with its policy for outright sales to which
Ind AS 115 applies. A manufacturer or dealer lessor shall recognise
selling profit or loss on a finance lease at the commencement date,
regardless of whether the lessor transfers the underlying asset as described in Ind AS 115.

72 Manufacturers or dealers often offer to customers the choice of either buying or leasing an asset. A finance lease of an asset by a manufacturer or dealer lessor gives rise to profit or loss equivalent to the profit or loss resulting from an outright sale of the underlying asset, at normal selling prices, reflecting any applicable volume or trade discounts.

73 Manufacturer or dealer lessors sometimes quote artificially low rates of interest in order to attract customers. The use of such a rate would result in a lessor recognising an excessive portion of the total income from the transaction at the commencement date. If artificially low rates of interest are quoted, a manufacturer or dealer lessor shall restrict selling profit to that which would apply if a market rate of interest were charged.

74 A manufacturer or dealer lessor shall recognise as an expense costs incurred in connection with obtaining a finance lease at the commencement date because they are mainly related to earning the manufacturer or dealer’s selling profit. Costs incurred by manufacturer or dealer lessors in connection with obtaining a finance lease are excluded from the definition of initial direct costs and, thus, are excluded from the net investment in the lease.

Subsequent measurement

75 A lessor shall recognise finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease.

76 A lessor aims to allocate finance income over the lease term on a systematic and rational basis. A lessor shall apply the lease payments relating to the period against the gross investment in the lease to reduce both the principal and the unearned finance income.

77 A lessor shall apply the derecognition and impairment requirements in Ind AS 109 to the net investment in the lease. A lessor shall review regularly estimated unguaranteed residual values used in computing the gross investment in the lease. If there has been a reduction in the estimated unguaranteed residual value, the lessor shall revise the income allocation over the lease term and recognise immediately any reduction in respect of amounts accrued.

78 A lessor that classifies an asset under a finance lease as held for sale (or includes it in a disposal group that is classified as held for sale) applying Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, shall account for the asset in accordance with that Standard.
Lease modifications

79 A lessor shall account for a modification to a finance lease as a separate lease if both:

(a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and

(b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

80 For a modification to a finance lease that is not accounted for as a separate lease, a lessor shall account for the modification as follows:

(a) if the lease would have been classified as an operating lease had the modification been in effect at the inception date, the lessor shall:

(i) account for the lease modification as a new lease from the effective date of the modification; and

(ii) measure the carrying amount of the underlying asset as the net investment in the lease immediately before the effective date of the lease modification.

(b) otherwise, the lessor shall apply the requirements of Ind AS 109.

Operating leases

Recognition and measurement

81 A lessor shall recognise lease payments from operating leases as income on either a straight-line basis or another systematic basis. The lessor shall apply another systematic basis if that basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished.

82 A lessor shall recognise costs, including depreciation, incurred in earning the lease income as an expense.

83 A lessor shall add initial direct costs incurred in obtaining an operating lease to the carrying amount of the underlying asset and recognise those costs as an expense over the lease term on the same basis as the lease income.

84 The depreciation policy for depreciable underlying assets subject to operating leases shall be consistent with the lessor’s normal depreciation policy for similar assets. A lessor shall calculate depreciation in accordance with Ind AS 16 and Ind AS 38.
A lessor shall apply Ind AS 36 to determine whether an underlying asset subject to an operating lease is impaired and to account for any impairment loss identified.

A manufacturer or dealer lessor does not recognise any selling profit on entering into an operating lease because it is not the equivalent of a sale.

**Lease modifications**

A lessor shall account for a modification to an operating lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease.

**Presentation**

A lessor shall present underlying assets subject to operating leases in its balance sheet according to the nature of the underlying asset.

**Disclosure**

The objective of the disclosures is for lessors to disclose information in the notes that, together with the information provided in the balance sheet, statement of profit or loss and statement of cash flows, gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of the lessor. Paragraphs 90–97 specify requirements on how to meet this objective.

A lessor shall disclose the following amounts for the reporting period:

(a) for finance leases:
   (i) selling profit or loss;
   (ii) finance income on the net investment in the lease; and
   (iii) income relating to variable lease payments not included in the measurement of the net investment in the lease.

(b) for operating leases, lease income, separately disclosing income relating to variable lease payments that do not depend on an index or a rate.

A lessor shall provide the disclosures specified in paragraph 90 in a tabular format, unless another format is more appropriate.

A lessor shall disclose additional qualitative and quantitative information about its leasing activities necessary to meet the disclosure objective in
paragraph 89. This additional information includes, but is not limited to, information that helps users of financial statements to assess:

(a) the nature of the lessor’s leasing activities; and

(b) how the lessor manages the risk associated with any rights it retains in underlying assets. In particular, a lessor shall disclose its risk management strategy for the rights it retains in underlying assets, including any means by which the lessor reduces that risk. Such means may include, for example, buy-back agreements, residual value guarantees or variable lease payments for use in excess of specified limits.

Finance leases

93 A lessor shall provide a qualitative and quantitative explanation of the significant changes in the carrying amount of the net investment in finance leases.

94 A lessor shall disclose a maturity analysis of the lease payments receivable, showing the undiscounted lease payments to be received on an annual basis for a minimum of each of the first five years and a total of the amounts for the remaining years. A lessor shall reconcile the undiscounted lease payments to the net investment in the lease. The reconciliation shall identify the unearned finance income relating to the lease payments receivable and any discounted unguaranteed residual value.

Operating leases

95 For items of property, plant and equipment subject to an operating lease, a lessor shall apply the disclosure requirements of Ind AS 16. In applying the disclosure requirements in Ind AS 16, a lessor shall disaggregate each class of property, plant and equipment into assets subject to operating leases and assets not subject to operating leases. Accordingly, a lessor shall provide the disclosures required by Ind AS 16 for assets subject to an operating lease (by class of underlying asset) separately from owned assets held and used by the lessor.

96 A lessor shall apply the disclosure requirements in Ind AS 36, Ind AS 38, Ind AS 40 and Ind AS 41 for assets subject to operating leases.

97 A lessor shall disclose a maturity analysis of lease payments, showing the undiscounted lease payments to be received on an annual basis for a minimum of each of the first five years and a total of the amounts for the remaining years.

Sale and leaseback transactions

98 If an entity (the seller-lessee) transfers an asset to another entity (the buyer-
lessor) and leases that asset back from the buyer-lessor, both the seller-lessee and the buyer-lessor shall account for the transfer contract and the lease applying paragraphs 99–103.

**Assessing whether the transfer of the asset is a sale**

99 An entity shall apply the requirements for determining when a performance obligation is satisfied in Ind AS 115 to determine whether the transfer of an asset is accounted for as a sale of that asset.

**Transfer of the asset is a sale**

100 If the transfer of an asset by the seller-lessee satisfies the requirements of Ind AS 115 to be accounted for as a sale of the asset:

(a) the seller-lessee shall measure the right-of-use asset arising from the leaseback at the proportion of the previous carrying amount of the asset that relates to the right of use retained by the seller-lessee. Accordingly, the seller-lessee shall recognise only the amount of any gain or loss that relates to the rights transferred to the buyer-lessor.

(b) the buyer-lessor shall account for the purchase of the asset applying applicable Standards, and for the lease applying the lessor accounting requirements in this Standard.

101 If the fair value of the consideration for the sale of an asset does not equal the fair value of the asset, or if the payments for the lease are not at market rates, an entity shall make the following adjustments to measure the sale proceeds at fair value:

(a) any below-market terms shall be accounted for as a prepayment of lease payments; and

(b) any above-market terms shall be accounted for as additional financing provided by the buyer-lessor to the seller-lessee.

102 The entity shall measure any potential adjustment required by paragraph 101 on the basis of the more readily determinable of:

(a) the difference between the fair value of the consideration for the sale and the fair value of the asset; and

(b) the difference between the present value of the contractual payments for the lease and the present value of payments for the lease at market rates.

**Transfer of the asset is not a sale**

103 If the transfer of an asset by the seller-lessee does not satisfy the requirements of Ind AS 115 to be accounted for as a sale of the asset:
(a) the seller-lessee shall continue to recognise the transferred asset and shall recognise a financial liability equal to the transfer proceeds. It shall account for the financial liability applying Ind AS 109.

(b) the buyer-lessee shall not recognise the transferred asset and shall recognise a financial asset equal to the transfer proceeds. It shall account for the financial asset applying Ind AS 109.
Appendix A
Defined terms

This appendix is an integral part of the Standard.

commencement date of the lease
The date on which a lessor makes an underlying asset available for use by a lessee.

economic life
Either the period over which an asset is expected to be economically usable by one or more users or the number of production or similar units expected to be obtained from an asset by one or more users.

effective date of the modification
The date when both parties agree to a lease modification.

fair value
For the purpose of applying the lessor accounting requirements in this Standard, the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction.

finance lease
A lease that transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

fixed payments
Payments made by a lessee to a lessor for the right to use an underlying asset during the lease term, excluding variable lease payments.

gross investment in the lease
The sum of:

(a) the lease payments receivable by a lessor under a finance lease; and
(b) any unguaranteed residual value accruing to the lessor.

inception date of the lease
The earlier of the date of a lease agreement and the date of commitment by the parties to the principal terms and conditions of the lease.

initial direct costs
Incremental costs of obtaining a lease that would not have been incurred if the lease had not been obtained, except for such costs incurred by a manufacturer or dealer lessor in connection with a finance lease.

interest rate
The rate of interest that causes the present value of
implicit in the lease  
(a) the lease payments and (b) the unguaranteed residual value to equal the sum of (i) the fair value of the underlying asset and (ii) any initial direct costs of the lessor.

Lease  
A contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration.

lease incentives  
Payments made by a lessor to a lessee associated with a lease, or the reimbursement or assumption by a lessor of costs of a lessee.

lease modification  
A change in the scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease(for example, adding or terminating the right to use one or more underlying assets, or extending or shortening the contractual lease term).

lease payments  
Payments made by a lessee to a lessor relating to the right to use an underlying asset during the lease term, comprising the following:
(a) fixed payments (including in-substance fixed payments), less any lease incentives;  
(b) variable lease payments that depend on an index or a rate;  
(c) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and  
(d) lease, if the lease term reflects the lessee exercising an option to terminate the lease.

For the lessee, lease payments also include amounts expected to be payable by the lessee under residual value guarantees. Lease payments do not include payments allocated to non-lease components of a contract, unless the lessee elects to combine non-lease components with a lease component and to account for them as a single lease component.

For the lessor, lease payments also include any residual value guarantees provided to the lessor by the lessee, a party related to the lessee or a third party unrelated to the lessor that is financially capable of discharging the obligations under the guarantee. Lease payments do not include
payments allocated to non-lease components.

**lease term**
The non-cancellable period for which a lessee has the right to use an underlying asset, together with both:
(a) periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and
(b) periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

**Lessee**
An entity that obtains the right to use an **underlying asset** for a period of time in exchange for consideration.

**lessee’s incremental borrowing rate**
The rate of interest that a lessee would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

**Lessor**
An entity that provides the right to use an **underlying asset** for a period of time in exchange for consideration.

**net investment in the lease**
The **gross investment in the lease** discounted at the **interest rate implicit in the lease**.

**operating lease**
A **lease** that does not transfer substantially all the risks and rewards incidental to ownership of an **underlying asset**.

**optional lease Payments**
Payments to be made by a **lessee** to a **lessor** for the right to use an **underlying asset** during periods covered by an option to extend or terminate a **lease** that are not included in the **lease term**.

**period of use**
The total period of time that an asset is used to fulfil a contract with a customer (including any non-consecutive periods of time).

**residual value Guarantee**
A guarantee made to a **lessor** by a party unrelated to the lessor that the value (or part of the value) of an **underlying asset** at the end of a **lease** will be at least a specified amount.
right-of-use asset  An asset that represents a lessee’s right to use an underlying asset for the lease term.

short-term lease  A lease that, at the commencement date, has a lease term of 12 months or less. A lease that contains a purchase option is not a short-term lease.

Sublease  A transaction for which an underlying asset is re-leased by a lessee (‘intermediate lessor’) to a third party, and the lease (‘head lease’) between the head lessor and lessee remains in effect.

underlying asset  An asset that is the subject of a lease, for which the right to use that asset has been provided by a lessor to a lessee.

unearned finance income  The difference between:

(a)  the gross investment in the lease; and

(b)  the net investment in the lease.

unguaranteed residual value  That portion of the residual value of the underlying asset, the realisation of which by a lessor is not assured or is guaranteed solely by a party related to the lessor.

variable lease payments  The portion of payments made by a lessee to a lessor for the right to use an underlying asset during the lease term that varies because of changes in facts or circumstances occurring after the commencement date, other than the passage of time.

Terms defined in other Standards and used in this Standard with the same meaning

contract  An agreement between two or more parties that creates enforceable rights and obligations.

useful life  The period over which an asset is expected to be available for use by an entity; or the number of production or similar units expected to be obtained from an asset by an entity.
**Appendix B**  
**Application guidance**

*This appendix is an integral part of the Standard. It describes the application of paragraphs 1–103 and has the same authority as the other parts of the Standard.*

**Portfolio application**

**B1** This Standard specifies the accounting for an individual lease. However, as a practical expedient, an entity may apply this Standard to a portfolio of leases with similar characteristics if the entity reasonably expects that the effects on the financial statements of applying this Standard to the portfolio would not differ materially from applying this Standard to the individual leases within that portfolio. If accounting for a portfolio, an entity shall use estimates and assumptions that reflect the size and composition of the portfolio.

**Combination of contracts**

**B2** In applying this Standard, an entity shall combine two or more contracts entered into at or near the same time with the same counterparty (or related parties of the counterparty), and account for the contracts as a single contract if one or more of the following criteria are met:

(a) the contracts are negotiated as a package with an overall commercial objective that cannot be understood without considering the contracts together;

(b) the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or

(c) the rights to use underlying assets conveyed in the contracts (or some rights to use underlying assets conveyed in each of the contracts) form a single lease component as described in paragraph B32.

**Recognition exemption: leases for which the underlying asset is of low value (paragraphs 5–8)**

**B3** Except as specified in paragraph B7, this Standard permits a lessee to apply paragraph 6 to account for leases for which the underlying asset is of low value. A lessee shall assess the value of an underlying asset based on the value of the asset when it is new, regardless of the age of the asset being leased.

**B4** The assessment of whether an underlying asset is of low value is
performed on an absolute basis. Leases of low-value assets qualify for the accounting treatment in paragraph 6 regardless of whether those leases are material to the lessee. The assessment is not affected by the size, nature or circumstances of the lessee. Accordingly, different lessees are expected to reach the same conclusions about whether a particular underlying asset is of low value.

B5 An underlying asset can be of low value only if:

(a) the lessee can benefit from use of the underlying asset on its own or together with other resources that are readily available to the lessee; and

(b) the underlying asset is not highly dependent on, or highly interrelated with, other assets.

B6 A lease of an underlying asset does not qualify as a lease of a low-value asset if the nature of the asset is such that, when new, the asset is typically not of low value. For example, leases of cars would not qualify as leases of low-value assets because a new car would typically not be of low value.

B7 If a lessee subleases an asset, or expects to sublease an asset, the head lease does not qualify as a lease of a low-value asset.

B8 Examples of low-value underlying assets can include tablet and personal computers, small items of office furniture and telephones.

Identifying a lease (paragraphs 9–11)

B9 To assess whether a contract conveys the right to control the use of an identified asset (see paragraphs B13–B20) for a period of time, an entity shall assess whether, throughout the period of use, the customer has both of the following:

(a) the right to obtain substantially all of the economic benefits from use of the identified asset (as described in paragraphs B21–B23); and

(b) the right to direct the use of the identified asset (as described in paragraphs B24–B30).

B10 If the customer has the right to control the use of an identified asset for only a portion of the term of the contract, the contract contains a lease for that portion of the term.

B11 A contract to receive goods or services may be entered into by a joint arrangement, or on behalf of a joint arrangement, as defined in
Ind AS 111, *Joint Arrangements*. In this case, the joint arrangement is considered to be the customer in the contract. Accordingly, in assessing whether such a contract contains a lease, an entity shall assess whether the joint arrangement has the right to control the use of an identified asset throughout the period of use.

B12 An entity shall assess whether a contract contains a lease for each potential separate lease component. Refer to paragraph B32 for guidance on separate lease components.

**Identified asset**

B13 An asset is typically identified by being explicitly specified in a contract. However, an asset can also be identified by being implicitly specified at the time that the asset is made available for use by the customer.

**Substantive substitution rights**

B14 Even if an asset is specified, a customer does not have the right to use an identified asset if the supplier has the substantive right to substitute the asset throughout the period of use. A supplier’s right to substitute an asset is substantive only if both of the following conditions exist:

(a) the supplier has the practical ability to substitute alternative assets throughout the period of use (for example, the customer cannot prevent the supplier from substituting the asset and alternative assets are readily available to the supplier or could be sourced by the supplier within a reasonable period of time); and

(b) the supplier would benefit economically from the exercise of its right to substitute the asset (ie the economic benefits associated with substituting the asset are expected to exceed the costs associated with substituting the asset).

B15 If the supplier has a right or an obligation to substitute the asset only on or after either a particular date or the occurrence of a specified event, the supplier’s substitution right is not substantive because the supplier does not have the practical ability to substitute alternative assets throughout the period of use.

B16 An entity’s evaluation of whether a supplier’s substitution right is substantive is based on facts and circumstances at inception of the contract and shall exclude consideration of future events that, at inception of the contract, are not considered likely to occur. Examples of future events that, at inception of the contract, would not be considered likely to occur and, thus, should be excluded...
from the evaluation include:

(a) an agreement by a future customer to pay an above market rate for use of the asset;
(b) the introduction of new technology that is not substantially developed at inception of the contract;
(c) a substantial difference between the customer’s use of the asset, or the performance of the asset, and the use or performance considered likely at inception of the contract; and
(d) a substantial difference between the market price of the asset during the period of use, and the market price considered likely at inception of the contract.

B17 If the asset is located at the customer’s premises or elsewhere, the costs associated with substitution are generally higher than when located at the supplier’s premises and, therefore, are more likely to exceed the benefits associated with substituting the asset.

B18 The supplier’s right or obligation to substitute the asset for repairs and maintenance, if the asset is not operating properly or if a technical upgrade becomes available does not preclude the customer from having the right to use an identified asset.

B19 If the customer cannot readily determine whether the supplier has a substantive substitution right, the customer shall presume that any substitution right is not substantive.

Portions of assets

B20 A capacity portion of an asset is an identified asset if it is physically distinct (for example, a floor of a building). A capacity or other portion of an asset that is not physically distinct (for example, a capacity portion of a fibre optic cable) is not an identified asset, unless it represents substantially all of the capacity of the asset and thereby provides the customer with the right to obtain substantially all of the economic benefits from use of the asset.

Right to obtain economic benefits from use

B21 To control the use of an identified asset, a customer is required to have the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use (for example, by having exclusive use of the asset throughout that period). A customer can obtain economic benefits from use of an asset directly or indirectly in many ways, such as by using, holding or sub-leasing the asset. The economic benefits from use of an asset include its primary output and by-products (including potential cash flows derived from these items), and other economic benefits from using
the asset that could be realised from a commercial transaction with a third party.

B22 When assessing the right to obtain substantially all of the economic benefits from use of an asset, an entity shall consider the economic benefits that result from use of the asset within the defined scope of a customer’s right to use the asset (see paragraph B30). For example:

(a) if a contract limits the use of a motor vehicle to only one particular territory during the period of use, an entity shall consider only the economic benefits from use of the motor vehicle within that territory, and not beyond.

(b) if a contract specifies that a customer can drive a motor vehicle only up to a particular number of miles during the period of use, an entity shall consider only the economic benefits from use of the motor vehicle for the permitted mileage, and not beyond.

B23 If a contract requires a customer to pay the supplier or another party a portion of the cash flows derived from use of an asset as consideration, those cash flows paid as consideration shall be considered to be part of the economic benefits that the customer obtains from use of the asset. For example, if the customer is required to pay the supplier a percentage of sales from use of retail space as consideration for that use, that requirement does not prevent the customer from having the right to obtain substantially all of the economic benefits from use of the retail space. This is because the cash flows arising from those sales are considered to be economic benefits that the customer obtains from use of the retail space, a portion of which it then pays to the supplier as consideration for the right to use that space.

**Right to direct the use**

B24 A customer has the right to direct the use of an identified asset throughout the period of use only if either:

(a) the customer has the right to direct how and for what purpose the asset is used throughout the period of use (as described in paragraphs B25–B30); or

(b) the relevant decisions about how and for what purpose the asset is used are predetermined and:

(i) the customer has the right to operate the asset (or to direct others to operate the asset in a manner that it determines) throughout the period of use, without the
supplier having the right to change those operating instructions; or

(ii) the customer designed the asset (or specific aspects of the asset) in a way that predetermines how and for what purpose the asset will be used throughout the period of use.

How and for what purpose the asset is used

A customer has the right to direct how and for what purpose the asset is used if, within the scope of its right of use defined in the contract, it can change how and for what purpose the asset is used throughout the period of use. In making this assessment, an entity considers the decision-making rights that are most relevant to changing how and for what purpose the asset is used throughout the period of use. Decision-making rights are relevant when they affect the economic benefits to be derived from use. The decision-making rights that are most relevant are likely to be different for different contracts, depending on the nature of the asset and the terms and conditions of the contract.

Examples of decision-making rights that, depending on the circumstances, grant the right to change how and for what purpose the asset is used, within the defined scope of the customer’s right of use, include:

(a) rights to change the type of output that is produced by the asset (for example, to decide whether to use a shipping container to transport goods or for storage, or to decide upon the mix of products sold from retail space);
(b) rights to change when the output is produced (for example, to decide when an item of machinery or a power plant will be used);
(c) rights to change where the output is produced (for example, to decide upon the destination of a truck or a ship, or to decide where an item of equipment is used); and
(d) rights to change whether the output is produced, and the quantity of that output (for example, to decide whether to produce energy from a power plant and how much energy to produce from that power plant).

Examples of decision-making rights that do not grant the right to change how and for what purpose the asset is used include rights that are limited to operating or maintaining the asset. Such rights can be held by the customer or the supplier. Although rights such as those to operate or maintain an asset are often essential to the efficient use of an asset, they are not rights to direct how and for what purpose the asset is used and are often dependent on the
decisions about how and for what purpose the asset is used. However, rights to operate an asset may grant the customer the right to direct the use of the asset if the relevant decisions about how and for what purpose the asset is used are predetermined (see paragraph B24(b)(i)).

**Decisions determined during and before the period of use**

**B28** The relevant decisions about how and for what purpose the asset is used can be predetermined in a number of ways. For example, the relevant decisions can be predetermined by the design of the asset or by contractual restrictions on the use of the asset.

**B29** In assessing whether a customer has the right to direct the use of an asset, an entity shall consider only rights to make decisions about the use of the asset during the period of use, unless the customer designed the asset (or specific aspects of the asset) as described in paragraph B24(b)(ii). Consequently, unless the conditions in paragraph B24(b)(ii) exist, an entity shall not consider decisions that are predetermined before the period of use. For example, if a customer is able only to specify the output of an asset before the period of use, the customer does not have the right to direct the use of that asset. The ability to specify the output in a contract before the period of use, without any other decision-making rights relating to the use of the asset, gives a customer the same rights as any customer that purchases goods or services.

**Protective rights**

**B30** A contract may include terms and conditions designed to protect the supplier’s interest in the asset or other assets, to protect its personnel, or to ensure the supplier’s compliance with laws or regulations. These are examples of protective rights. For example, a contract may (i) specify the maximum amount of use of an asset or limit where or when the customer can use the asset, (ii) require a customer to follow particular operating practices, or (iii) require a customer to inform the supplier of changes in how an asset will be used. Protective rights typically define the scope of the customer’s right of use but do not, in isolation, prevent the customer from having the right to direct the use of an asset.
The following flowchart may assist entities in making the assessment of whether a contract is, or contains, a lease.

1. **Customer**
   - **Yes**: Does the customer have the right to operate the asset throughout the period of use, without the supplier having the right to change those operating instructions? Consider paragraph B24(b)(i).
     - **No**: Did the customer design the asset in a way that predetermines how and for what purpose the asset will be used throughout the period of use? Consider paragraph B24(b)(ii).
       - **Yes**: The contract contains a lease
       - **No**: The contract does not contain a lease
   - **No**: Neither; how and for what purpose the asset will be used is predetermined

2. **It there an identified asset? Consider paragraphs B13-B20.**
   - **Yes**: Does the customer have the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use? Consider paragraphs B21-B23.
     - **No**: Customer
     - **Yes**: The contract contains a lease
   - **No**: The contract does not contain a lease
Separating components of a contract (paragraphs 12–17)

B32 The right to use an underlying asset is a separate lease component if both:

(a) the lessee can benefit from use of the underlying asset either on its own or together with other resources that are readily available to the lessee. Readily available resources are goods or services that are sold or leased separately (by the lessor or other suppliers) or resources that the lessee has already obtained (from the lessor or from other transactions or events); and

(b) the underlying asset is neither highly dependent on, nor highly interrelated with, the other underlying assets in the contract. For example, the fact that a lessee could decide not to lease the underlying asset without significantly affecting its rights to use other underlying assets in the contract might indicate that the underlying asset is not highly dependent on, or highly interrelated with, those other underlying assets.

B33 A contract may include an amount payable by the lessee for activities and costs that do not transfer a good or service to the lessee. For example, a lessor may include in the total amount payable a charge for administrative tasks, or other costs it incurs associated with the lease, that do not transfer a good or service to the lessee. Such amounts payable do not give rise to a separate component of the contract, but are considered to be part of the total consideration that is allocated to the separately identified components of the contract.

Lease term (paragraphs 18–21)

B34 In determining the lease term and assessing the length of the non-cancellable period of a lease, an entity shall apply the definition of a contract and determine the period for which the contract is enforceable. A lease is no longer enforceable when the lessee and the lessor each has the right to terminate the lease without permission from the other party with no more than an insignificant penalty.

B35 If only a lessee has the right to terminate a lease, that right is considered to be an option to terminate the lease available to the lessee that an entity considers when determining the lease term. If only a lessor has the right to terminate a lease, the non-cancellable period of the lease includes the period covered by the option to terminate the lease.
The lease term begins at the commencement date and includes any rent-free periods provided to the lessee by the lessor.

At the commencement date, an entity assesses whether the lessee is reasonably certain to exercise an option to extend the lease or to purchase the underlying asset, or not to exercise an option to terminate the lease. The entity considers all relevant facts and circumstances that create an economic incentive for the lessee to exercise, or not to exercise, the option, including any expected changes in facts and circumstances from the commencement date until the exercise date of the option. Examples of factors to consider include, but are not limited to:

(a) contractual terms and conditions for the optional periods compared with market rates, such as:

(i) the amount of payments for the lease in any optional period;

(ii) the amount of any variable payments for the lease or other contingent payments, such as payments resulting from termination penalties and residual value guarantees; and

(iii) the terms and conditions of any options that are exercisable after initial optional periods (for example, a purchase option that is exercisable at the end of an extension period at a rate that is currently below market rates).

(b) significant leasehold improvements undertaken (or expected to be undertaken) over the term of the contract that are expected to have significant economic benefit for the lessee when the option to extend or terminate the lease, or to purchase the underlying asset, becomes exercisable;

(c) costs relating to the termination of the lease, such as negotiation costs, relocation costs, costs of identifying another underlying asset suitable for the lessee’s needs, costs of integrating a new asset into the lessee’s operations, or termination penalties and similar costs, including costs associated with returning the underlying asset in a contractually specified condition or to a contractually specified location;

(d) the importance of that underlying asset to the lessee’s operations, considering, for example, whether the underlying asset is a specialised asset, the location of the underlying asset and the availability of suitable alternatives; and
conditionality associated with exercising the option (ie when the option can be exercised only if one or more conditions are met), and the likelihood that those conditions will exist.

**B38** An option to extend or terminate a lease may be combined with one or more other contractual features (for example, a residual value guarantee) such that the lessee guarantees the lessor a minimum or fixed cash return that is substantially the same regardless of whether the option is exercised. In such cases, and notwithstanding the guidance on in-substance fixed payments in paragraph B42, an entity shall assume that the lessee is reasonably certain to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

**B39** The shorter the non-cancellable period of a lease, the more likely a lessee is to exercise an option to extend the lease or not to exercise an option to terminate the lease. This is because the costs associated with obtaining a replacement asset are likely to be proportionately higher the shorter the non-cancellable period.

**B40** A lessee’s past practice regarding the period over which it has typically used particular types of assets (whether leased or owned), and its economic reasons for doing so, may provide information that is helpful in assessing whether the lessee is reasonably certain to exercise, or not to exercise, an option. For example, if a lessee has typically used particular types of assets for a particular period of time or if the lessee has a practice of frequently exercising options on leases of particular types of underlying assets, the lessee shall consider the economic reasons for that past practice in assessing whether it is reasonably certain to exercise an option on leases of those assets.

**B41** Paragraph 20 specifies that, after the commencement date, a lessee reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the lessee is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term. Examples of significant events or changes in circumstances include:

(a) significant leasehold improvements not anticipated at the commencement date that are expected to have significant economic benefit for the lessee when the option to extend or terminate the lease, or to purchase the underlying asset, becomes exercisable;

(b) a significant modification to, or customisation of, the
underlying asset that was not anticipated at the commencement date;

(c) the inception of a sublease of the underlying asset for a period beyond the end of the previously determined lease term; and

(d) a business decision of the lessee that is directly relevant to exercising, or not exercising, an option (for example, a decision to extend the lease of a complementary asset, to dispose of an alternative asset or to dispose of a business unit within which the right-of-use asset is employed).

In-substance fixed lease payments (paragraphs 27(a), 36(c) and 70(a))

B42 Lease payments include any in-substance fixed lease payments. In-substance fixed lease payments are payments that may, in form, contain variability but that, in substance, are unavoidable. In-substance fixed lease payments exist, for example, if:

(a) payments are structured as variable lease payments, but there is no genuine variability in those payments. Those payments contain variable clauses that do not have real economic substance. Examples of those types of payments include:

(i) payments that must be made only if an asset is proven to be capable of operating during the lease, or only if an event occurs that has no genuine possibility of not occurring; or

(ii) payments that are initially structured as variable lease for which the variability will be resolved at some point after the commencement date so that the payments become fixed for the remainder of the lease term. Those payments become in-substance fixed payments when the variability is resolved.

(b) there is more than one set of payments that a lessee could make, but only one of those sets of payments is realistic. In this case, an entity shall consider the realistic set of payments to be lease payments.

(c) there is more than one realistic set of payments that a lessee could make, but it must make at least one of those sets of payments. In this case, an entity shall consider the set of payments that aggregates to the lowest amount (on a discounted basis) to be lease payments.
Lessee involvement with the underlying asset before the commencement date

Costs of the lessee relating to the construction or design of the underlying asset

B43 An entity may negotiate a lease before the underlying asset is available for use by the lessee. For some leases, the underlying asset may need to be constructed or redesigned for use by the lessee. Depending on the terms and conditions of the contract, a lessee may be required to make payments relating to the construction or design of the asset.

B44 If a lessee incurs costs relating to the construction or design of an underlying asset, the lessee shall account for those costs applying other applicable Standards, such as Ind AS 16. Costs relating to the construction or design of an underlying asset do not include payments made by the lessee for the right to use the underlying asset. Payments for the right to use an underlying asset are payments for a lease, regardless of the timing of those payments.

Legal title to the underlying asset

B45 A lessee may obtain legal title to an underlying asset before that legal title is transferred to the lessor and the asset is leased to the lessee. Obtaining legal title does not in itself determine how to account for the transaction.

B46 If the lessee controls (or obtains control of) the underlying asset before that asset is transferred to the lessor, the transaction is a sale and leaseback transaction that is accounted for applying paragraphs 98–103.

B47 However, if the lessee does not obtain control of the underlying asset before the asset is transferred to the lessor, the transaction is not a sale and leaseback transaction. For example, this may be the case if a manufacturer, a lessor and a lessee negotiate a transaction for the purchase of an asset from the manufacturer by the lessor, which is in turn leased to the lessee. The lessee may obtain legal title to the underlying asset before legal title transfers to the lessor. In this case, if the lessee obtains legal title to the underlying asset but does not obtain control of the asset before it is transferred to the lessor, the transaction is not accounted for as a sale and leaseback transaction, but as a lease.

Lessee disclosures (paragraph 59)

B48 In determining whether additional information about leasing activities is necessary to meet the disclosure objective in paragraph
51, a lessee shall consider:

(a) whether that information is relevant to users of financial statements. A lessee shall provide additional information specified in paragraph 59 only if that information is expected to be relevant to users of financial statements. In this context, this is likely to be the case if it helps those users to understand:

(i) the flexibility provided by leases. Leases may provide flexibility if, for example, a lessee can reduce its exposure by exercising termination options or renewing leases with favourable terms and conditions.

(ii) restrictions imposed by leases. Leases may impose restrictions, for example, by requiring the lessee to maintain particular financial ratios.

(iii) sensitivity of reported information to key variables. Reported information may be sensitive to, for example, future variable lease payments.

(iv) exposure to other risks arising from leases.

(v) deviations from industry practice. Such deviations may include, for example, unusual or unique lease terms and conditions that affect a lessee’s lease portfolio.

(b) whether that information is apparent from information either presented in the primary financial statements or disclosed in the notes. A lessee need not duplicate information that is already presented elsewhere in the financial statements.

B49 Additional information relating to variable lease payments that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example:

(a) the lessee’s reasons for using variable lease payments and the prevalence of those payments;

(b) the relative magnitude of variable lease payments to fixed payments;

(c) key variables upon which variable lease payments depend and how payments are expected to vary in response to changes in those key variables; and

(d) other operational and financial effects of variable lease payments.
payments.

B50 Additional information relating to extension options or termination options that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example:

(a) the lessee’s reasons for using extension options or termination options and the prevalence of those options;

(b) the relative magnitude of optional lease payments to lease payments;

(c) the prevalence of the exercise of options that were not included in the measurement of lease liabilities; and

(d) other operational and financial effects of those options.

B51 Additional information relating to residual value guarantees that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example:

(a) the lessee’s reasons for providing residual value guarantees and the prevalence of those guarantees;

(b) the magnitude of a lessee’s exposure to residual value risk;

(c) the nature of underlying assets for which those guarantees are provided; and

(d) other operational and financial effects of those guarantees.

B52 Additional information relating to sale and leaseback transactions that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example:

(a) the lessee’s reasons for sale and leaseback transactions and the prevalence of those transactions;

(b) key terms and conditions of individual sale and leaseback transactions;

(c) payments not included in the measurement of lease liabilities; and

(d) the cash flow effect of sale and leaseback transactions in the
reporting period.

**Lessor lease classification (paragraphs 61–66)**

B53 The classification of leases for lessors in this Standard is based on the extent to which the lease transfers the risks and rewards incidental to ownership of an underlying asset. Risks include the possibilities of losses from idle capacity or technological obsolescence and of variations in return because of changing economic conditions. Rewards may be represented by the expectation of profitable operation over the underlying asset’s economic life and of gain from appreciation in value or realisation of a residual value.

B54 A lease contract may include terms and conditions to adjust the lease payments for particular changes that occur between the inception date and the commencement date (such as a change in the lessor's cost of the underlying asset or a change in the lessor’s cost of financing the lease). In that case, for the purposes of classifying the lease, the effect of any such changes shall be deemed to have taken place at the inception date.

B55 When a lease includes both land and buildings elements, a lessor shall assess the classification of each element as a finance lease or an operating lease separately applying paragraphs 62–66 and B53–B54. In determining whether the land element is an operating lease or a finance lease, an important consideration is that land normally has an indefinite economic life.

B56 Whenever necessary in order to classify and account for a lease of land and buildings, a lessor shall allocate lease payments (including any lump-sum upfront payments) between the land and the buildings elements in proportion to the relative fair values of the leasehold interests in the land element and buildings element of the lease at the inception date. If the lease payments cannot be allocated reliably between these two elements, the entire lease is classified as a finance lease, unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease.

B57 For a lease of land and buildings in which the amount for the land element is immaterial to the lease, a lessor may treat the land and buildings as a single unit for the purpose of lease classification and classify it as a finance lease or an operating lease applying paragraphs 62–66 and B53–B54. In such a case, a lessor shall regard the economic life of the buildings as the economic life of the entire underlying asset.

**Sublease classification**
B58 In classifying a sublease, an intermediate lessor shall classify the
sublease as a finance lease or an operating lease as follows:

(a) if the head lease is a short-term lease that the entity, as a
lessee, has accounted for applying paragraph 6, the sublease
shall be classified as an operating lease.

(b) otherwise, the sublease shall be classified by reference to the
right-of-use asset arising from the head lease, rather than by
reference to the underlying asset (for example, the item of
property, plant or equipment that is the subject of the lease).
Appendix C
Effective date and transition

This appendix is an integral part of the Standard and has the same authority as the other parts of the Standard.

Effective date

C1 An entity shall apply this Standard for annual reporting periods beginning on or after 1st April, 2019.

Transition

C2 For the purposes of the requirements in paragraphs C1–C19, the date of initial application is the beginning of the annual reporting period in which an entity first applies this Standard.

Definition of a lease

C3 As a practical expedient, an entity is not required to reassess whether a contract is, or contains, a lease at the date of initial application. Instead, the entity is permitted:

(a) to apply this Standard to contracts that were previously identified as leases applying Ind AS 17, Leases. The entity shall apply the transition requirements in paragraphs C5–C18 to those leases.

(b) not to apply this Standard to contracts that were not previously identified as containing a lease applying Ind AS 17.

C4 If an entity chooses the practical expedient in paragraph C3, it shall disclose that fact and apply the practical expedient to all of its contracts. As a result, the entity shall apply the requirements in paragraphs 9–11 only to contracts entered into (or changed) on or after the date of initial application.

Lessees

C5 A lessee shall apply this Standard to its leases either:

(a) retrospectively to each prior reporting period presented applying Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors; or

(b) retrospectively with the cumulative effect of initially applying the Standard recognised at the date of initial application in accordance with paragraphs C7–C13.

C6 A lessee shall apply the election described in paragraph C5 consistently to all of its leases in which it is a lessee.
C7  If a lessee elects to apply this Standard in accordance with paragraph C5(b), the lessee shall not restate comparative information. Instead, the lessee shall recognise the cumulative effect of initially applying this Standard as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the date of initial application.

**Leases previously classified as operating leases**

C8  If a lessee elects to apply this Standard in accordance with paragraph C5(b), the lessee shall:

(a) recognise a lease liability at the date of initial application for leases previously classified as an operating lease applying Ind AS 17. The lessee shall measure that lease liability at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate at the date of initial application.

(b) recognise a right-of-use asset at the date of initial application for leases previously classified as an operating lease applying Ind AS 17. The lessee shall choose, on a lease-by-lease basis, to measure that right-of-use asset at either:

(i) its carrying amount as if the Standard had been applied since the commencement date, but discounted using the lessee’s incremental borrowing rate at the date of initial application; or

(ii) an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the balance sheet immediately before the date of initial application.

(c) apply Ind AS 36, *Impairment of Assets*, to right-of-use assets at the date of initial application, unless the lessee applies the practical expedient in paragraph C10(b).

C9  Notwithstanding the requirements in paragraph C8, for leases previously classified as operating leases applying Ind AS 17, a lessee:

(a) is not required to make any adjustments on transition for leases for which the underlying asset is of low value (as described in paragraphs B3–B8) that will be accounted for applying paragraph 6. The lessee shall account for those leases applying this Standard from the date of initial application.

(b) [Refer Appendix 1].

(c) [Refer Appendix 1].

C10  A lessee may use one or more of the following practical expedients when applying this Standard retrospectively in accordance with paragraph C5(b) to leases previously classified as operating leases applying Ind AS 17. A lessee is
permitted to apply these practical expedients on a lease-by-lease basis:

(a) a lessee may apply a single discount rate to a portfolio of leases with reasonably similar characteristics (such as leases with a similar remaining lease term for a similar class of underlying asset in a similar economic environment).

(b) a lessee may rely on its assessment of whether leases are onerous applying Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, immediately before the date of initial application as an alternative to performing an impairment review. If a lessee chooses this practical expedient, the lessee shall adjust the right-of-use asset at the date of initial application by the amount of any provision for onerous leases recognised in the balance sheet immediately before the date of initial application.

(c) a lessee may elect not to apply the requirements in paragraph C8 to leases for which the lease term ends within 12 months of the date of initial application. In this case, a lessee shall:

(i) account for those leases in the same way as short-term leases as described in paragraph 6; and

(ii) include the cost associated with those leases within the disclosure of short-term lease expense in the annual reporting period that includes the date of initial application.

(d) a lessee may exclude initial direct costs from the measurement of the right-of-use asset at the date of initial application.

(e) a lessee may use hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

Leases previously classified as finance leases

C11 If a lessee elects to apply this Standard in accordance with paragraph C5(b), for leases that were classified as finance leases applying Ind AS 17, the carrying amount of the right-of-use asset and the lease liability at the date of initial application shall be the carrying amount of the lease asset and lease liability immediately before that date measured applying Ind AS 17. For those leases, a lessee shall account for the right-of-use asset and the lease liability applying this Standard from the date of initial application.

Disclosure

C12 If a lessee elects to apply this Standard in accordance with paragraph C5(b), the lessee shall disclose information about initial application required by paragraph 28 of Ind AS 8, except for the information specified in paragraph 28(f) of Ind AS 8. Instead of the information specified in paragraph 28(f) of Ind AS 8, the lessee shall disclose:
(a) the weighted average lessee’s incremental borrowing rate applied to lease liabilities recognised in the balance sheet at the date of initial application; and

(b) an explanation of any difference between:

(i) operating lease commitments disclosed applying Ind AS 17 at the end of the annual reporting period immediately preceding the date of initial application, discounted using the incremental borrowing rate at the date of initial application as described in paragraph C8(a); and

(ii) lease liabilities recognised in the balance sheet at the date of initial application.

C13 If a lessee uses one or more of the specified practical expedients in paragraph C10, it shall disclose that fact.

Lessors

C14 Except as described in paragraph C15, a lessor is not required to make any adjustments on transition for leases in which it is a lessor and shall account for those leases applying this Standard from the date of initial application.

C15 An intermediate lessor shall:

(a) reassess subleases that were classified as operating leases applying Ind AS 17 and are ongoing at the date of initial application, to determine whether each sublease should be classified as an operating lease or a finance lease applying this Standard. The intermediate lessor shall perform this assessment at the date of initial application on the basis of the remaining contractual terms and conditions of the head lease and sublease at that date.

(b) for subleases that were classified as operating leases applying Ind AS 17 but finance leases applying this Standard, account for the sublease as a new finance lease entered into at the date of initial application.

Sale and leaseback transactions before the date of initial application

C16 An entity shall not reassess sale and leaseback transactions entered into before the date of initial application to determine whether the transfer of the underlying asset satisfies the requirements in Ind AS 115 to be accounted for as a sale.

C17 If a sale and leaseback transaction was accounted for as a sale and a finance lease applying Ind AS 17, the seller-lessee shall:

(a) account for the leaseback in the same way as it accounts for any other
finance lease that exists at the date of initial application; and

(b) continue to amortise any gain on sale over the lease term.

C18 If a sale and leaseback transaction was accounted for as a sale and operating lease applying Ind AS 17, the seller-lessee shall:

(a) account for the leaseback in the same way as it accounts for any other operating lease that exists at the date of initial application; and

(b) adjust the leaseback right-of-use asset for any deferred gains or losses that relate to off-market terms recognised in the balance sheet immediately before the date of initial application.

Amounts previously recognised in respect of business combinations

C19 If a lessee previously recognised an asset or a liability applying Ind AS 103, Business Combinations, relating to favourable or unfavourable terms of an operating lease acquired as part of a business combination, the lessee shall derecognise that asset or liability and adjust the carrying amount of the right-of-use asset by a corresponding amount at the date of initial application.

C20 [Refer Appendix 1]

Withdrawal of other Standards

C21 This Standard supersedes Ind AS 17, Leases.
Appendix 1

Note: This Appendix is not a part of the Indian Accounting Standard. The purpose of this Appendix is only to bring out the major differences, if any, between Indian Accounting Standard (Ind AS) 116 and the corresponding International Financial Reporting Standard (IFRS) 16, Leases, issued by the International Accounting Standards Board.

Comparison with IFRS 16, Leases

1. With regard to subsequent measurement, paragraph 34 of IFRS 16 provides that if lessee applies fair value model in IAS 40 to its investment property, it shall apply that fair value model to the right-of-use assets that meet the definition of investment property. Since Ind AS 40, Investment Property, does not allow the use of fair value model, paragraph 34 has been deleted in Ind AS 116. Accordingly, reference to paragraph 34 has been deleted in paragraph 29. Paragraph C9(b) and paragraph C9(c) of Appendix C, Effective Date and Transition, given in context of fair value model of investment property have been deleted. However, paragraph numbers have been retained in Ind AS 116 to maintain consistency with paragraph numbers of IFRS 16.

2. Paragraph 47(a) of IFRS 16 provides option of either to present right-of-use assets separately or to include those right-of-use assets within the same line item as that within which the corresponding assets would be presented if they were owned. The latter option is not given in Ind AS 116. Similar option given in paragraph 47(b) of IFRS 16 regarding presentation of lease liability has not been given in Ind AS 116.

3. Paragraph 50(b) of IFRS 16 requires to classify cash payments for interest portion of lease liability applying requirements of IAS 7, Statement of Cash Flows. IAS 7 provides option of treating interest paid as operating or financing activity. However, Ind AS 7 requires interest paid to be treated as financing activity only. Accordingly, paragraph 50(b) has been modified in Ind AS 116 to specify that cash payments for interest portion of lease liability will be classified as financing activities applying Ind AS 7.

4. Different terminology is used in this standard, eg, the term ‘balance sheet’ is used instead of ‘Statement of financial position’ and ‘Statement of profit and loss’ is used instead of ‘Statement of comprehensive income’.

5. Paragraph C20 of Appendix C, Effective Date and Transition, dealing with interchange of reference of IFRS 9 to IAS 39 if entity does not apply IFRS 9 has been deleted since India has early adopted Ind AS 109, corresponding to IFRS 9.
Consequential Amendments to other Ind ASs

This appendix sets out the amendments to other Standards that are a consequence of the issuing this Standard. An entity shall apply the amendments for annual periods beginning on or after 1st April, 2019.

Ind AS 115, Revenue from Contracts with Customers, has been proposed to be effective for accounting periods beginning on or after 1st April, 2018, i.e., before applicability of Ind AS 116. Accordingly, amendments, consequent to issuance of Ind AS 116, have been made in Ind AS 115 and reference of Ind AS 115 is included in Ind AS 116 instead of Ind AS 11 and Ind AS 18.

Amended paragraphs are shown with deleted text struck through and new text underlined.

Ind AS 101, First-time Adoption of Indian Accounting Standards

| Paragraph 30 is amended and paragraph 39AB is added. |

39Y-39AA [Refer Appendix 1]

39AB Ind AS 116, Leases, amended paragraphs 30, C4, D1, D7, D8B, D9, D9AA, deleted paragraph D9A and added paragraphs D9B–D9E. An entity shall apply those amendments when it applies Ind AS 116.

In Appendix C, paragraph C4 is amended.

Exemptions for business combinations

... 

C4 If a first-time adopter does not apply Ind AS 103 retrospectively to a past business combination, this has the following consequences for that business combination:

(a) ...

1 Since these amendments to Ind AS will be notified by the Ministry of Corporate Affairs (MCA), the effective date of applicability of these amendments will be as may be notified by the MCA.
(f) If an asset acquired, or liability assumed, in a past business combination was not recognised in accordance with previous GAAP, it does not have a deemed cost of zero in the opening Ind AS Balance Sheet. Instead, the acquirer shall recognise and measure it in its consolidated Balance Sheet on the basis that Ind ASs would require in the Balance Sheet of the acquiree. To illustrate: if the acquirer had not, in accordance with its previous GAAP, capitalised finance leases acquired in a past business combination in which acquiree was a lessee, it shall capitalise those leases in its consolidated financial statements, as Ind AS 116, Leases, would require the acquiree to do in its Ind AS Balance Sheet. Similarly, if the acquirer had not, in accordance with its previous GAAP, recognised a contingent liability that still exists at the date of transition to Ind ASs, the acquirer shall recognise that contingent liability at that date unless Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, would prohibit its recognition in the financial statements of the acquiree. Conversely, if an asset or liability was subsumed in goodwill/capital reserve in accordance with previous GAAP but would have been recognised separately under Ind AS 103, that asset or liability remains in goodwill/capital reserve unless Ind ASs would require its recognition in the financial statements of the acquiree.

(g) …

In Appendix D, paragraphs D1, D7, D8B, D9 and D9AA are amended and paragraph D9A is deleted. Paragraphs D9B-D9E are added.

Exemptions from other Ind AS

D1 An entity may elect to use one or more of the following exemptions:

(a) …

(d) leases (paragraphs D9, and D9AA and D9B-D9E);

(e) …

Deemed Cost

…

D7 The elections in paragraphs D5 and D6 are also available for:

(a) Omitted;

(aa) Right-of-use assets (Ind AS 116 Leases); and

(a) (b) intangible assets that meet:

(i) the recognition criteria in Ind AS 38 (including reliable measurement of original cost); and

(ii) the criteria in Ind AS 38 for revaluation (including the existence of an active market).

An entity shall not use these elections for other assets or for liabilities.

D8B Some entities hold items of property, plant and equipment, right-of-use assets or intangible assets that are used, or were previously used, in operations subject to rate regulation. The carrying amount of such items might include amounts that were determined under previous GAAP but do not qualify for capitalisation in accordance with Ind ASs. If this is the case, a first-time adopter may elect to use the previous GAAP carrying amount of such an item at the date of transition to Ind ASs as deemed
cost. If an entity applies this exemption to an item, it need not apply it to all items. At
the date of transition to Ind ASs, an entity shall test for impairment in accordance
with Ind AS 36 each item for which this exemption is used. For the purposes of this
paragraph, operations are subject to rate regulation if they are governed by a
framework for establishing the prices that can be charged to customers for goods or
services and that framework is subject to oversight and/or approval by a rate regulator
(as defined in Ind AS 114, Regulatory Deferral Accounts).

Leases

D9  A first-time adopter may assess whether a contract apply paragraphs 6-9 of the
Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to
determine whether an arrangement existing at the date of transition to Ind ASs
contains a lease by applying paragraphs 9-11 of Ind AS 116 to those contracts on the
basis of facts and circumstances existing at that date of transition to Ind AS, except where the effect is expected to be not material

D9A  [Refer Appendix 1] If a first-time adopter made the same determination of whether an
arrangement contained a lease in accordance with previous GAAP as that required by
Appendix C of Ind AS-17 but at a date other than that required by D9 above, the first-
time adopter need not reassess that determination when it adopts Ind ASs. For an
entity to have made the same determination of whether the arrangement contained a
lease in accordance with previous GAAP, that determination would have to have given the same outcome as that resulting from applying Ind AS 17, Leases, and
Appendix C of Ind AS 17.

D9AA  When a lease includes both land and building elements, a first time adopter lessor
may assess the classification of each element as finance or an operating lease at the
date of transition to Ind ASs on the basis of the facts and circumstances existing as at
that date. If there is any land lease newly classified as finance lease then the first time
adopter may recognise assets and liability at fair value on that date; and any
difference between those fair values is recognised in retained earnings.

D9B  When a first-time adopter that is a lessee recognises lease liabilities and right-of-use
assets, it may apply the following approach to all of its leases (subject to the practical
expedients described in paragraph D9D):

(a) measure a lease liability at the date of transition to Ind AS. A lessee following
this approach shall measure that lease liability at the present value of the
remaining lease payments (see paragraph D9E), discounted using the lessee’s
incremental borrowing rate (see paragraph D9E) at the date of transition to Ind
AS.

(b) measure a right-of-use asset at the date of transition to Ind AS. The lessee
shall choose, on a lease-by-lease basis, to measure that right-of-use asset at
either:
   (i) its carrying amount as if Ind 116 had been applied since the
   commencement date of the lease (see paragraph D9E), but discounted
   using the lessee’s incremental borrowing rate at the date of transition to
   Ind AS; or
   (ii) an amount equal to the lease liability, adjusted by the amount of any
   prepaid or accrued lease payments relating to that lease recognised in the
   balance sheet immediately before the date of transition to Ind AS.
(c) apply Ind AS 36 to right-of-use assets at the date of transition to Ind AS.

D9C  [Refer Appendix 1]

D9D  A first-time adopter that is a lessee may do one or more of the following at the date of transition to Ind AS, applied on a lease-by-lease basis:

(a) apply a single discount rate to a portfolio of leases with reasonably similar characteristics (for example, a similar remaining lease term for a similar class of underlying asset in a similar economic environment).

(b) elect not to apply the requirements in paragraph D9B to leases for which the lease term (see paragraph D9E) ends within 12 months of the date of transition to Ind AS. Instead, the entity shall account for (including disclosure of information about) these leases as if they were short-term leases accounted for in accordance with paragraph 6 of Ind AS 116.

(c) elect not to apply the requirements in paragraph D9B to leases for which the underlying asset is of low value (as described in paragraphs B3-B8 of Ind AS 116). Instead, the entity shall account for (including disclosure of information about) these leases in accordance with paragraph 6 of Ind AS 116.

(d) exclude initial direct costs (see paragraph D9E) from the measurement of the right-of-use asset at the date of transition to Ind AS.

(e) use hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

D9E  Lease payments, lessee, lessee’s incremental borrowing rate, commencement date of the lease, initial direct costs and lease term are defined terms in Ind AS 116 and are used in this Standard with the same meaning.

Appendix 1

---

12. Following paragraph numbers appear as ‘deleted’ in IFRS 1. In order to maintain consistency with paragraph numbers of IFRS 1, the paragraph numbers are retained in Ind AS 101:

(i)  ...

(iv) Paragraph D9A

(iv) Paragraph D10-11

(vi) Paragraph D24

(vii) Paragraph D31
13. IAS 40, *Investment Property* permits both cost model and fair value model (except in some situations) for measurement of investment properties after initial recognition. Ind AS 40, *Investment Property*, permits only the cost model. As a consequence, paragraph 30 is amended and paragraphs D7(a) and D9C are deleted.

14. …

15. Paragraphs 34-39W and paragraphs 39Y-39AA have not been included in Ind AS 101 as these paragraphs relate to effective date. However, in order to maintain consistency with paragraph numbers of IFRS 1, these paragraph numbers are retained in Ind AS 101.

**Ind AS 103, Business Combinations**

| Paragraphs 14 and 17 are amended and paragraphs 28A and 28B and their related heading, and paragraph 64M, are added. |

*Recognition conditions*

…

14. Paragraphs B28B31–B40 provide guidance on recognising operating leases and intangible assets. Paragraphs 22–28B specify the types of identifiable assets and liabilities that include items for which this Ind AS provides limited exceptions to the recognition principle and conditions.

*Classifying or designating identifiable assets acquired and liabilities assumed in a business combination*

17. This Ind AS provides two exceptions to the principle in paragraph 15:

(a) classification of a lease contract in which acquiree is the lessor as either an operating lease or a finance lease in accordance with Ind AS 11647, *Leases*; and

(b) …

*Leases in which the acquiree is the lessee*

28A. The acquirer shall recognise right-of-use assets and lease liabilities for leases identified in accordance with Ind AS 116 in which the acquiree is the lessee. The acquirer is not required to recognise right-of-use assets and lease liabilities for:

(a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date; or

(b) leases for which the underlying asset is of low value (as described in paragraphs B3–B8 of Ind AS 116).

28B. The acquirer shall measure the lease liability at the present value of the remaining lease payments (as defined in Ind AS 116) as if the acquired lease were a new lease at
the acquisition date. The acquirer shall measure the right-of-use asset at the same amount as the lease liability, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

**Effective date**

64-64L [Refer Appendix 1]

64M Paragraphs 14, 17, B32 and B42 have been amended, paragraphs B28–B30 and their related heading have been deleted and paragraphs 28A–28B and their related heading have been added. An entity shall apply those amendments when it applies Ind AS 116.

In Appendix B, paragraphs B28–B30 and their related heading are deleted and paragraphs B32 and B42 are amended.

**Operating leases**

B28-B30 [Refer Appendix 1] The acquirer shall recognise no assets or liabilities related to an operating lease in which the acquiree is the lessee except as required by paragraphs B29 and B30.

B29 The acquirer shall determine whether the terms of each operating lease in which the acquiree is the lessee are favourable or unfavourable. The acquirer shall recognise an intangible asset if the terms of an operating lease are favourable relative to market terms and a liability if the terms are unfavourable relative to market terms. Paragraph B42 provides guidance on measuring the acquisition-date fair value of assets subject to operating leases in which the acquiree is the lessor.

B30 An identifiable intangible asset may be associated with an operating lease, which may be evidenced by market participants’ willingness to pay a price for the lease even if it is at market terms. For example, a lease of gates at an airport or of retail space in a prime shopping area might provide entry into a market or other future economic benefits that qualify as identifiable intangible assets, for example, as a customer relationship. In that situation, the acquirer shall recognise the associated identifiable intangible asset(s) in accordance with paragraph B31.

**Intangible assets**

B32 An intangible asset that meets the contractual-legal criterion is identifiable even if the asset is not transferable or separable from the acquiree or from other rights and obligations. For example:

(a) [Refer Appendix 1] an acquiree leases a manufacturing facility under an operating lease that has terms that are favourable relative to market terms. The lease terms explicitly prohibit transfer of the lease (through either sale or sublease). The amount by which the lease terms are favourable compared with the terms of current market transactions for the same or similar items is an intangible asset that meets the contractual-legal criterion for recognition.
separately from goodwill, even though the acquirer cannot sell or otherwise transfer the lease contract.

(b) …

Assets subject to operating leases in which the acquiree is the lessor

B42 In measuring the acquisition-date fair value of an asset such as a building or a patent that is subject to an operating lease in which the acquiree is the lessor, the acquirer shall take into account the terms of the lease. In other words, the acquirer does not recognise a separate asset or liability if the terms of an operating lease are either favourable or unfavourable when compared with market terms as paragraph B29 requires for leases in which the acquiree is the lessee.

Appendix 1

Comparison with IFRS 3, Business Combinations

---

5. Paragraphs 64-64L of IFRS 3 have not been included in Ind AS 103 as these paragraphs relate to effective date which is not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IFRS 3, these paragraph numbers are retained in Ind AS 103.

6. The following paragraph numbers appear as ‘Deleted’ in IFRS 3. In order to maintain consistency with paragraph numbers of Ind AS 103, the paragraph numbers are retained in Ind AS 103:

(i) Paragraph B28- B30

(ii) Paragraph B32(a)

Ind AS 104, Insurance Contracts

<table>
<thead>
<tr>
<th>Paragraph 4, as amended by Ind AS 115, is amended and paragraph 41I is added.</th>
</tr>
</thead>
</table>

4. An entity shall not apply this Ind AS to:

(a) …

(c) contractual rights or contractual obligations that are contingent on the future use of, or right to use, a non-financial item (for example, some licence fees, royalties, variable contingent lease payments and similar items), as well as a lessee’s residual value guarantee embedded in a finance lease (see Ind AS 116, Leases, Ind AS 115, Revenue from Contracts with Customers, and Ind AS 38, Intangible Assets).
Effective date and transition

......

40H [Refer Appendix 1]

40I Paragraph 4 has been amended. An entity shall apply that amendment when it applies Ind AS 116.

Appendix 1

Comparison with IFRS 4, Insurance Contracts

...

2. Paragraphs 40-41F and 41H related to effective date and other transitional provisions given in IFRS 4 have not been given in Ind AS 104 since it is not relevant in Indian context. All transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. However, in order to maintain consistency with paragraph numbers of IFRS 4, these paragraph numbers are retained in Ind AS 104.

Ind AS 107, Financial Instruments: Disclosures

Paragraph 29 is amended and paragraph 44CC is added.

29. Disclosures of fair value are not required:

(a) …

(d) for lease liabilities.

Effective date

42I-44BB [Refer Appendix 1]

44CC Paragraph 29 and B11D have been amended. An entity shall apply those amendments when it applies Ind AS 116.

In Appendix B, paragraph B11D is amended.

Quantitative liquidity risk disclosures (paragraphs 34(a) and 39(a) and (b))

...
B11D The contractual amounts disclosed in the maturity analyses as required by paragraph 39(a) and (b) are the contractual undiscounted cash flows, for example:

(a) gross finance lease liabilities (before deducting finance charges);

(b) …

Appendix 1

Comparison with IFRS 7, Financial Instruments: Disclosures

1. Paragraphs 42I-44BB of IFRS 7 have not been included in Ind AS 107 as these paragraphs relate to Initial application of IFRS 9 which are not relevant in Indian context. Paragraphs 43-44BB related to effective date and the transitional provisions given in IFRS 7 have not been given in Ind AS 107 since it is not relevant in Indian context. All transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. However, in order to maintain consistency with paragraph numbers of IFRS 7, these paragraph numbers are retained in Ind AS 107.

Ind 109, Financial Instruments

Paragraph 2.1 and paragraph 5.5.15 are amended and paragraph 7.1.5 is added.

Chapter 2 Scope

2.1 This Standard shall be applied by all entities to all types of financial instruments except:

(a) …

(b) …

(c) …

Simplified approach for trade receivables, contract assets and lease receivables
5.5.15 Despite paragraphs 5.5.3 and 5.5.5, an entity shall always measure the loss allowance at an amount equal to lifetime expected credit losses for:

(a) …

(b) lease receivables that result from transactions that are within the scope of Ind AS [116], if the entity chooses as its accounting policy to measure the loss allowance at an amount equal to lifetime expected credit losses. That accounting policy shall be applied to all lease receivables but may be applied separately to finance and operating lease receivables.

7.1 Effective date

7.1.1-7.1.4 [Refer Appendix 1]

7.1.5 Paragraphs 2.1, 5.5.15, B4.3.8, B5.5.34 and B5.5.46 have been amended. An entity shall apply those amendments when it applies Ind AS 116.

In Appendix B, paragraphs B4.3.8, B5.5.34 and B5.5.46 are amended.

Embedded derivatives (Section 4.3)

B4.3.8 The economic characteristics and risks of an embedded derivative are closely related to the economic characteristics and risks of the host contract in the following examples. In these examples, an entity does not account for the embedded derivative separately from the host contract.

…

(f) An embedded derivative in a host lease contract is closely related to the host contract if the embedded derivative is (i) an inflation-related index such as an index of lease payments to a consumer price index (provided that the lease is not leveraged and the index relates to inflation in the entity’s own economic environment), (ii) variable lease payments contingent rentals based on related sales or (iii) variable lease payments contingent rentals based on variable interest rates.

(g) …

Measurement of expected credit losses

Expected credit losses

…

B5.5.34 When measuring a loss allowance for a lease receivable, the cash flows used for determining the expected credit losses should be consistent with the cash flows used in measuring the lease receivable in accordance with Ind AS [116] Leases.

…
Time value of money

...

B5.5.46 Expected credit losses on lease receivables shall be discounted using the same
discount rate used in the measurement of the lease receivable in accordance with
Ind AS 116.47.

...

Appendix E
References to matters contained in other Indian Accounting Standards

This appendix is an integral part of the Ind AS.

This appendix lists the appendices which are part of other Indian Accounting Standards and
make reference to Ind AS 109, Financial Instruments.

1. ...

2. Appendix B, Evaluating the Substance of Transactions Involving the Legal Form of
Lease contained in Ind AS 17, Leases.

Appendix 1

Comparison with IFRS 9, Financial Instruments, IFRIC 16 and IFRIC 19

...

3. Paragraphs 7.1.1-7.1.4 of IFRS 9 have not been included in Ind AS 109 as these
paragraphs relate to effective date which is not relevant in Indian context. However,
in order to maintain consistency with paragraph numbers of IFRS 9, these paragraph
numbers are retained in Ind AS 109.

Ind AS 113, Fair Value Measurement

Paragraph 6 is amended.

Scope

...

6. The measurement and disclosure requirements of this Ind AS do not apply to the
following:

(a) ...
(b) leasing transactions accounted for in accordance with within the scope of Ind AS 116, Leases; and

(c) ...

Appendix C of IFRS 13 issued by IASB relates to ‘Effective date and transition’, however, Ind AS 113 notified by MCA on February 16, 2015, referred Appendix C as ‘References to matters contained in other Indian Accounting Standards’. In the notified Ind AS 113, there was no specific appendix for Effective date and transition, as all Ind ASs were effective from the date of notification in the official Gazette and all transitional provisions were incorporated in Ind AS 101, First-time adoption of Indian Accounting Standards. However, in order to maintain consistency with IFRS 13, the Appendix C in Ind AS 113 has been now renamed as ‘Effective Date and transition’. The Appendix pertaining to ‘References to matters contained in other Indian Accounting Standards’ will be renumbered as Appendix D to Ind AS 113.

In Appendix C, paragraph C6 is added.

**Appendix C**

**Effective date and transition**

This appendix is an integral part of the Ind AS and has same authority as the other parts of the Ind AS

C1-C5 [Refer Appendix 1]

C6 Ind AS 116 Leases, amended paragraph 6. An entity shall apply that amendment when it applies Ind AS 116.

**Appendix DC**

**References to matters contained in other Indian Accounting Standards**

1. Appendix C, Determining whether an Arrangement contains a Lease contained in Ind AS 17, Leases.

1.2 Appendix A, Distributions of Non-cash Assets to Owners contained in Ind AS 10, Events After the Reporting Period.

2.3 Appendix D, Extinguishing Financial Liabilities with Equity Instruments contained in Ind AS 109, Financial Instruments.

**Appendix 1**

Comparison with IFRS 13, *Fair Value Measurement*

...
3. Paragraphs C1-C5 of IFRS 13 have not been included in Ind AS 113 as these paragraphs relate to effective date and transition which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IFRS 13, these paragraph numbers are retained in Ind AS 113.

Ind AS 115, Revenue from Contracts with Customers

Paragraphs 5 and 97 are amended.

Scope

5. An entity shall apply this Standard to all contracts with customers, except the following:

(a) lease contracts within the scope of Ind AS 116, Leases;

(b) ...

Costs to fulfil a contract

...

97 Costs that relate directly to a contract (or a specific anticipated contract) include any of the following:

(a) ...

(c) allocations of costs that relate directly to the contract or to contract activities (for example, costs of contract management and supervision, insurance and depreciation of tools, and equipment and right-of-use assets used in fulfilling the contract);

(d) ...

In Appendix B, paragraphs B66 and B70 are amended.

A forward or a call option

B66 If an entity has an obligation or a right to repurchase the asset (a forward or a call option), a customer does not obtain control of the asset because the customer is limited in its ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset even though the customer may have physical possession of the asset. Consequently, the entity shall account for the contract as either of the following:

(a) a lease in accordance with Ind AS 116, Leases, if the entity can or must repurchase the asset for an amount that is less than the original selling price of the asset unless the contract is part of a sale and leaseback transaction. If the
A put option

B70 If an entity has an obligation to repurchase the asset at the customer’s request (a put option) at a price that is lower than the original selling price of the asset, the entity shall consider at contract inception whether the customer has a significant economic incentive to exercise that right. The customer’s exercising of that right results in the customer effectively paying the entity consideration for the right to use a specified asset for a period of time. Therefore, if the customer has a significant economic incentive to exercise that right, the entity shall account for the agreement as a lease in accordance with Ind AS 116, unless the contract is part of a sale and leaseback transaction. If the contract is part of a sale and leaseback transaction, the entity shall continue to recognise the asset and shall recognise a financial liability for any consideration received from the customer. The entity shall account for the financial liability in accordance with Ind AS 109.

In Appendix C, paragraph C1A is amended.

Effective date

This appendix is an integral part of the Standard and has the same authority as the other parts of the Standard.

C1 ...

C1A [Refer Appendix 1] Ind AS 116 Leases, amended paragraphs 5, 97, B66 and B70. An entity shall apply those amendments when it applies Ind AS 116.

.....

Appendix D

Application Guidance on Appendix D

Scope (paragraph 5 of Appendix D)

In Appendix C, Paragraph AG8 is amended.

AG1 ...

AG8 The operator may have a right to use the separable infrastructure described in paragraph AG7(a), or the facilities used to provide ancillary unregulated services
described in paragraph AG7(b). In either case, there may in substance be a lease from
the grantor to the operator; if so, it shall be accounted for in accordance with Ind AS
11647.

Appendix E

Services Concession Arrangements: Disclosures

In Appendix D, Paragraph 5 is amended.

Issue

1. ...

5. Certain aspects and disclosures relating to some service concession arrangements are
addressed by Indian Accounting Standards (eg Ind AS 16 applies to acquisitions of
items of property, plant and equipment, Ind AS 11647 applies to leases of assets, and
Ind AS 38 applies to acquisitions of intangible assets). However, a service concession
arrangement may involve executory contracts that are not addressed in Indian
Accounting Standards, unless the contracts are onerous, in which case Ind AS 37
applies. Therefore, this Appendix addresses additional disclosures of service
concession arrangements.

Appendix 1

Comparison with IFRS 15, Revenue from Contracts with Customers, IFRIC 12 and SIC 29

7. Paragraphs C1A, C1B, C8A and C9 related to effective date and transition have been
deleted due to following reasons:

(a) Paragraph C1A refers to amendments in paragraphs 5, 97, B66 and B70 due to issuance
of IFRS 16, Leases for which corresponding Ind AS is under formulation.

...

Ind AS 1, Presentation of Financial Statements

Paragraph 123 is amended and paragraph 139Q is added.

123 In the process of applying the entity’s accounting policies, management makes
various judgements, apart from those involving estimations, that can significantly
affect the amounts it recognises in the financial statements. For example,
management makes judgements in determining:

(a) ...
b.(b) when substantially all the significant risks and rewards of ownership of financial assets and, for lessors, lease assets subject to leases, are transferred to other entities; 

... 

Transition and effective date 

.....

139O-139P [Refer Appendix 1]

139Q Ind AS 116, Leases, amended paragraph 123. An entity shall apply that amendment when it applies Ind AS 116.

Appendix 1

Comparison with IAS 1, Presentation of Financial Statements 

...

10. Paragraphs 139-139M and 139O-139P of IAS 1 have not been included in Ind AS 1 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 1, these paragraph numbers are retained in Ind AS 1.

Ind AS 2, Inventories 

Paragraph 12 is amended and paragraph 40G is added.

Costs of conversion 

12. The costs of conversion of inventories include costs directly related to the units of production, such as direct labour. They also include a systematic allocation of fixed and variable production overheads that are incurred in converting materials into finished goods. Fixed production overheads are those indirect costs of production that remain relatively constant regardless of the volume of production, such as depreciation and maintenance of factory buildings, equipment, and right-of-use assets used in the production process, and the cost of factory management and administration. Variable production overheads are those indirect costs of production that vary directly, or nearly directly, with the volume of production, such as indirect materials and indirect labour.

...

Effective date 

.....
Ind 116, Leases, amended paragraph 12. An entity shall apply that amendment when it applies Ind AS 116.

Appendix 1

Comparison with IAS 2, Inventories

...  

3. Paragraphs 40-40D and 40F of IAS 2 have not been included in Ind AS 2 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 2, these paragraph numbers are retained in Ind AS 2.

Ind AS 7, Statement of Cash Flows

Paragraphs 17 and 44 are amended and paragraph 59 is added.

Financing activities

17 The separate disclosure of cash flows arising from financing activities is important because it is useful in predicting claims on future cash flows by providers of capital to the entity. Examples of cash flows arising from financing activities are:

    (a) ...

    (e) cash payments by a lessee for the reduction of the outstanding liability relating to a finance lease.

Non-cash transactions

43 ...

44 Many investing and financing activities do not have a direct impact on current cash flows although they do affect the capital and asset structure of an entity. The exclusion of non-cash transactions from the statement of cash flows is consistent with the objective of a statement of cash flows as these items do not involve cash flows in the current period. Examples of non-cash transactions are:

    (a) the acquisition of assets either by assuming directly related liabilities or by means of a finance lease;

    (b) ...

Effective date
53-58 [Refer Appendix 1]

59 Ind 116, Leases, amended paragraphs 17 and 44. An entity shall apply those amendments when it applies Ind AS 116.

Appendix 1
Comparison with IAS 7, Statements of Cash Flow
...
3. Paragraphs 53-58 of IAS 7 have not been included in Ind AS 7 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 7, these paragraph numbers are retained in Ind AS 7.

Ind AS 12, Income Taxes

Paragraph 20 is amended and paragraph 98G is added.

Assets carried at fair value

20 Ind ASs permit or require certain assets to be carried at fair value or to be revalued (see, for example, Ind AS 16, Property, Plant and Equipment, Ind AS 38, Intangible Assets, and Ind AS 109, Financial Instruments and Ind AS 116, Leases). In some jurisdictions, the revaluation or other restatement of an asset to fair value affects taxable profit (tax loss) for the current period. As a result, the tax base of the asset is adjusted and no temporary difference arises. In other jurisdictions, the revaluation or restatement of an asset does not affect taxable profit in the period of the revaluation or restatement and, consequently, the tax base of the asset is not adjusted. Nevertheless, the future recovery of the carrying amount will result in a taxable flow of economic benefits to the entity and the amount that will be deductible for tax purposes will differ from the amount of those economic benefits. The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset. This is true even if:

(a) …

Effective date
-----

98F [Refer Appendix 1]

98G Ind 116, Leases, amended paragraph 20. An entity shall apply that amendment when it applies Ind AS 116.
Appendix 1

Comparison with IAS 12, Income Taxes

... 8. Paragraphs 89-98D and 98F of IAS 12 have not been included in Ind AS 12 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 12, these paragraph numbers are retained in Ind AS 12.

Ind AS 16, Property, Plant and Equipment

Paragraphs 4 and 27 are deleted, paragraphs 5, 10, 44 and 68 are amended, paragraph 69, as amended by Ind AS 115, is amended and paragraph 81L is added. In Appendix A, paragraph 2 is amended and paragraph 9B is added.

Scope

4. [Refer Appendix 1] Other Indian Accounting Standards may require recognition of an item of property, plant and equipment based on an approach different from that in this Standard. For example, Ind AS 17, Leases, requires an entity to evaluate its recognition of an item of leased property, plant and equipment on the basis of the transfer of risks and rewards. However, in such cases other aspects of the accounting treatment for these assets, including depreciation, are prescribed by this Standard.

5. An entity accounting for investment property in accordance with Ind AS 40, Investment Property, shall use the cost model in this Standard for owned investment property.

Recognition

... 10. An entity evaluates under this recognition principle all its property, plant and equipment costs at the time they are incurred. These costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. The cost of an item of property, plant and equipment may include costs incurred relating to leases of assets that are used to construct, add to, replace part of or service an item of property, plant and equipment, such as depreciation of right-of-use assets.

Measurement of cost

... 27. [Refer Appendix 1] The cost of an item of property, plant and equipment held by a lessee under a finance lease is determined in accordance with Ind AS 17.
Depreciation

43. …

44. An entity allocates the amount initially recognised in respect of an item of property, plant and equipment to its significant parts and depreciates separately each such part. For example, it may be appropriate to depreciate separately the airframe and engines of an aircraft, whether owned or subject to a finance lease. Similarly, if an entity acquires property, plant and equipment subject to an operating lease in which it is the lessor, it may be appropriate to depreciate separately amounts reflected in the cost of that item that are attributable to favourable or unfavourable lease terms relative to market terms.

…

Derecognition

…

68. The gain or loss arising from the derecognition of an item of property, plant and equipment shall be included in profit or loss when the item is derecognised (unless Ind AS [11647 requires otherwise on a sale and leaseback). Gains shall not be classified as revenue.

69. The disposal of an item of property, plant and equipment may occur in a variety of ways (eg by sale, by entering into a finance lease or by donation). The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115. Ind AS [11647 applies to disposal by a sale and leaseback.

This Appendix is an integral part of the Ind AS.

This appendix lists the appendices which are part of other Indian Accounting Standards and make reference to Ind AS 16, Property, Plant and Equipment.

1. ….

3. Appendix C, Determining whether an Arrangement contains a Lease contained in Ind AS 17, Leases.

3.4 Appendix A, Intangible Assets—Web Site Costs contained in Ind AS 38, Intangible Assets.

Appendix 1

Comparison with IAS 16, Property, Plant and Equipment, IFRIC 1 and IFRIC 20

1 Paragraphs 80-80C of IAS 16 related to transitional provisions given in IAS 16 and IFRIC 1 and IFRIC 20 have not been given in Ind AS 16, since all transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. Paragraphs 81-81I and 81K of IAS 16 have not been included in Ind AS 16 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 16, these paragraph numbers are retained in Ind AS 16.

...

4. The following paragraph numbers appear as ‘Deleted’ in IAS 16. In order to maintain consistency with paragraph numbers of IAS 16, the paragraph numbers are retained in Ind AS 16:
   (i) paragraph 4
   (ii) paragraph 27
   (iii) paragraphs 32-33
   (iv) paragraph 64
   (v) paragraph 77(c)-(d)

5. ...
Ind AS 21, *The Effects of Changes in Foreign Exchange Rates*

**Monetary items**

16. The essential feature of a monetary item is a right to receive (or an obligation to deliver) a fixed or determinable number of units of currency. Examples include: pensions and other employee benefits to be paid in cash; provisions that are to be settled in cash; *[lease liabilities]*; and cash dividends that are recognised as a liability. Similarly, a contract to receive (or deliver) a variable number of the entity’s own equity instruments or a variable amount of assets in which the fair value to be received (or delivered) equals a fixed or determinable number of units of currency is a monetary item. Conversely, the essential feature of a non-monetary item is the absence of a right to receive (or an obligation to deliver) a fixed or determinable number of units of currency. Examples include: amounts prepaid for goods and services (e.g., prepaid rent); goodwill; intangible assets; inventories; property, plant and equipment; *[right-of-use assets]* and provisions that are to be settled by the delivery of a non-monetary asset.

**Effective date and transition**

**Appendix 1**

Comparison with IAS 21, *The Effects of Change in Foreign Exchange Rates*

1. Paragraphs 58-60J related to the effective date and transitional provisions given in IAS 21 have not been given in the Ind AS 21, since all transitional provisions related to Indian ASs, wherever considered appropriate, have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards, corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. However, in order to maintain consistency with paragraph numbers of IAS 21, these paragraph numbers are retained in Ind AS 21.

**Ind AS 23, Borrowing Costs**

**Definitions**

... 

6. **Borrowing costs may include:**

   (a) …
(d) finance charges interest in respect of finance leases liabilities recognised in accordance with Ind AS 116, Leases; and

(e) ...

27-28 [Refer Appendix 1]

Effective date

29-29B [Refer Appendix 1]

29C Ind 116 Leases, amended paragraph 6. An entity shall apply that amendment when it applies Ind AS 116.

Appendix 1

Comparison with IAS 23, Borrowing Costs

...

3. Paragraphs 27-28 related to The transitional provisions given in IAS 23 have not been given in Ind AS 23, since all transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards, corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. Paragraphs 29-29B of IAS 23 have not been included in Ind AS 23 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 23, these paragraph numbers are retained in Ind AS 23.

| Effective date and transition |

...

97R [Refer Appendix 1]

97S Ind 116, Leases, amended paragraphs AG9 and AG10. An entity shall apply those amendments when it applies Ind AS 116.

Appendix A

Application Guidance

...

AG9 A lease typically creates Under Ind AS 17, Leases, a finance lease is regarded as primarily an entitlement of the lessor to receive, and an obligation of the lessee to
pay, a stream of payments that are substantially the same as blended payments of principal and interest under a loan agreement. The lessor accounts for its investment in the amount receivable under a finance lease contract rather than the underlying leased asset itself that is subject to the finance lease. Accordingly, a lessor regards a finance lease as a financial instrument. Under Ind AS 116, a lessor does not recognise its entitlement to receive lease payments under an operating lease. An operating lease, on the other hand, is regarded as primarily an uncompleted contract committing the lessor to provide the use of an asset in future periods in exchange for consideration similar to a fee for a service. The lessor continues to account for the underlying leased asset itself rather than any amount receivable in the future under the contract. Accordingly, a finance lease lessor does not regard an operating lease as a financial instrument and regard an operating lease is not regarded as a financial instrument (except as regards individual payments currently due and payable by lessee).

AG10 Physical assets (such as inventories, property, plant and equipment), right-of-use assets, leased assets and intangible assets (such as patents and trademarks) are not financial assets. Control of such physical assets, right-of-use assets and intangible assets creates an opportunity to generate an inflow of cash or another financial asset, but it does not give rise to a present right to receive cash or another financial asset.

Appendix 1

Comparison with IAS 32, Financial Instruments: Presentation

2. Paragraphs 96-97P and 97R related to effective date and transition given in IAS 32 have not been given in Ind AS 32. The transitional provisions given in IAS 32 have not been given in Ind AS 32, since all transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards. However, in order to maintain consistency with paragraph numbers of IAS 32, these paragraph numbers are retained in Ind AS 32.

Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets

Paragraph 5 is amended and paragraph 102 is added.

Scope

5. When another Standard deals with a specific type of provision, contingent liability or contingent asset, an entity applies that Standard instead of this Standard. For example, some types of provisions are addressed in Standards on:
Leases (see Ind AS 17, *Leases*). However, as Ind AS 17 contains no specific requirements to deal with operating leases that have become onerous, this Standard applies to such cases—this Standard applies to any lease that becomes onerous before the commencement date of the lease as defined in Ind AS 116. This Standard also applies to short-term leases and leases for which the underlying asset is of low value accounted for in accordance with paragraph 6 of Ind AS 116 and that have become onerous;

93-94 **[Refer Appendix 1]**

**Effective date**

...  

101 **[Refer Appendix 1]**

102 *Ind 116, Leases*, amended paragraph 5. An entity shall apply that amendment when it applies Ind AS 116.

**Appendix D**

**References to matters contained in other Indian Accounting Standards**

This Appendix is an integral part of the Ind AS.

This appendix lists the appendices which are part of other Indian Accounting Standards and makes references to Ind AS 37, *Provisions, Contingent Liabilities and Contingent Assets*.

(i) ...

(iii) Appendix B, *Evaluating the Substance of Transactions involving the Legal Form of a Lease*—contained in Ind AS 17, *Leases*.

**Appendix 1**

Comparison with IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*

1. Paragraphs 93-94 related to transitional provisions given in IAS 37 have not been given in Ind AS 37. The transitional provisions given in IAS 37 and IFRIC 5 and IFRIC 6 have not been given in Ind AS 37, since all transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, *First-time Adoption of Indian Accounting Standards*, corresponding to IFRS 1, *First-time Adoption of International Financial Reporting Standards*. Paragraphs 95-99 and 101 of IAS 37 have not been included in Ind AS 37 as these paragraphs relate to effective date which are not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 37, these paragraph numbers are retained in Ind AS 37.
Ind AS 38, Intangible Assets

Paragraphs 3, 6 and 113 are amended, paragraph 114, as amended by Ind AS 115, is amended and paragraph 130L is added.

Scope

3. If another Standard prescribes the accounting for a specific type of intangible asset, an entity applies that Standard instead of this Standard. For example, this Standard does not apply to:

   (c) leases that are within the scope of Ind AS 17, of intangible assets accounted for in accordance with Ind AS 116, Leases.

6. In the case of a finance lease, the underlying asset may be either tangible or intangible. After initial recognition, a lessee accounts for an intangible asset held under a finance lease in accordance with this Standard. Rights held by a lessee under licensing agreements for items such as motion picture films, video recordings, plays, manuscripts, patents and copyrights are excluded from the scope of Ind AS 17, and are within the scope of this Standard and are excluded from the scope of Ind AS 116.

Retirements and disposals

113. The gain or loss arising from the derecognition of an intangible asset shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset. It shall be recognised in profit or loss when the asset is derecognised (unless Ind AS 116 requires otherwise on a sale and leaseback). Gains shall not be classified as revenue.

114. The disposal of an intangible asset may occur in a variety of ways (eg by sale, by entering into a finance lease, or by donation). The date of disposal of an intangible asset is the date that the recipient obtains control of that asset in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115, Revenue from Contracts with Customers. Ind AS 116 applies to disposal by a sale and leaseback.

Transitional provisions and effective date

130L Ind 116 Leases, amended paragraphs 3, 6, 113 and 114. An entity shall apply those amendments when it applies Ind AS 116.
Appendix A
Intangible Assets – Web Site Costs

In Appendix A, paragraph 6, as amended by Ind AS 115, is amended.

Issue

1. …

6 Ind AS 38 does not apply to intangible assets held by an entity for sale in the ordinary course of business (see Ind AS 2 and Ind AS 115) or leases of intangible assets accounted for in accordance with Ind AS 116 that fall within the scope of Ind AS 17. Accordingly, this Appendix does not apply to expenditure on the development or operation of a web site (or web site software) for sale to another entity or that is accounted for in accordance with Ind AS 116. When a web site is leased under an operating lease, the lessor applies this Appendix. When a web site is leased under a finance lease, the lessee applies this Appendix after initial recognition of the leased asset.

Appendix B

References to matters contained in other Indian Accounting Standards

This appendix is an integral part of the Ind AS.

This appendix lists the appendices which are part of other Indian Accounting Standards and make reference to Ind AS 38, Intangible Assets.

…

3. Appendix C, Determining whether an Arrangement contains a Lease, contained in Ind AS 17, Leases.

4.3. Appendix B, Stripping Costs in the Production Phase of a Surface Mine, contained in Ind AS 16, Property, Plant and Equipment.

Indian Accounting Standard (Ind AS) 40

Investment Property

Paragraphs 5, 7, 8, 9, 16, 20, 56, 67, 69 and 74 are amended, paragraphs 19A, 29A, 40A, 84B, 85F and its related heading are added, paragraphs 3, 25 and 26 are deleted.

Scope

3. [Refer Appendix 1] Among other things, this Standard applies to the measurement in a lessee’s financial statements of investment property interests held under a lease accounted for as a finance lease and to the measurement in a lessor’s financial
statements of investment property provided to a lessee under an operating lease. This Standard does not deal with matters covered in Ind AS 17, Leases, including:

(a) classification of leases as finance leases or operating leases;
(b) recognition of lease income from investment property (see also Ind AS 115, Revenue from Contracts with Customers);
(c) measurement in a lessee’s financial statements of property interests held under a lease accounted for as an operating lease;
(d) measurement in a lessor’s financial statements of its net investment in a finance lease;
(e) accounting for sale and leaseback transactions; and
(f) disclosure about finance leases and operating leases.

5. ....

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee as a right-of-use asset under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

(a) use in the production or supply of goods or services or for administrative purposes; or
(b) sale in the ordinary course of business.

Owner-occupied property is property held (by the owner or by the lessee as a right-of-use asset under a finance lease) for use in the production or supply of goods or services or for administrative purposes.

Classification of property as investment property or owner-occupied property

7. Investment property is held to earn rentals or for capital appreciation or both. Therefore, an investment property generates cash flows largely independently of the other assets held by an entity. This distinguishes investment property from owner-occupied property. The production or supply of goods or services (or the use of property for administrative purposes) generates cash flows that are attributable not only to property, but also to other assets used in the production or supply process. Ind AS 16 applies to owned owner-occupied property and Ind AS 116 applies to owner-occupied property held by a lessee as a right-of-use asset.

8. The following are examples of investment property:

(a) land held for long-term capital appreciation rather than for short-term sale in the ordinary course of business.

(b) land held for a currently undetermined future use. (If an entity has not determined that it will use the land as owner-occupied property or for short-
term sale in the ordinary course of business, the land is regarded as held for capital appreciation.)

(c) a building owned by the entity (or a right-of-use asset relating to a building held by the entity under a finance lease) and leased out under one or more operating leases.

(d) a building that is vacant but is held to be leased out under one or more operating leases.

(e) property that is being constructed or developed for future use as investment property.

9. The following are examples of items that are not investment property and are therefore outside the scope of this Standard:

(a) ……

(c) owner-occupied property (see Ind AS 16 and Ind AS 116), including (among other things) property held for future use as owner-occupied property, property held for future development and subsequent use as owner-occupied property, property occupied by employees (whether or not the employees pay rent at market rates) and owner-occupied property awaiting disposal.

Recognition

16. An owned investment property shall be recognised as an asset when, and only when:

(a) it is probable that the future economic benefits that are associated with the investment property will flow to the entity; and

(b) the cost of the investment property can be measured reliably.

17………

19A An investment property held by a lessee as a right-of-use asset shall be recognised in accordance with Ind AS 116.

Measurement at recognition

20. An owned investment property shall be measured initially at its cost. Transaction costs shall be included in the initial measurement.

25. [Refer Appendix 1] The initial cost of a property interest held under a lease and classified as an investment property shall be as prescribed for a finance lease by paragraph 20 of Ind AS 17, i.e. the asset shall be recognised at the lower of the fair value of the property and the present value of the minimum lease payments. An equivalent amount shall be recognised as a liability in accordance with that same paragraph.
26. [Refer Appendix 1] Any premium paid for a lease is treated as part of the minimum lease payments for this purpose, and is therefore included in the cost of the asset, but is excluded from the liability. If a property interest held under a lease is classified as investment property, the item accounted for at fair value is that interest and not the underlying property. Guidance on measuring the fair value of a property interest is set out in paragraphs 33–52 and in Ind AS 113. That guidance is also relevant to the measurement of fair value when that value is used as cost for initial recognition purposes.

29A An investment property held by a lessee as a right-of-use asset shall be measured initially at its cost in accordance with Ind AS 116.

Measurement after recognition

40A When a lessee measures fair value of an investment property that is held as a right-of-use asset, it shall measure the right-of-asset, and not the underlying property at fair value.

Cost model

56. After initial recognition, an entity shall measure all of its investment properties in accordance with Ind AS 16’s requirements for cost model, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations. Investment properties that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) shall be measured in accordance with Ind AS 105:

(a) In accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, if it meets the criteria to be classified as held for sale (or is included in a disposal group that is classified as held for sale);

(b) In accordance with Ind AS 116 if it is held by a lessee as a right-of-use asset and is not held for sale in accordance with Ind AS 105; and

(c) In accordance with the requirements in Ind AS 16 for cost model in all other cases.

Disposals

66…….

67 The disposal of an investment property may be achieved by sale or by entering into a finance lease. The date of disposal for investment property that is sold is the date the recipient obtains control of the investment property in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115. Ind AS 116 applies to a disposal effected by entering into a finance lease and to a sale and leaseback.
69. Gains or losses arising from the retirement or disposal of investment property shall be determined as the difference between the net disposal proceeds and the carrying amount of the asset and shall be recognised in profit or loss (unless Ind AS 116 requires otherwise on a sale and leaseback) in the period of the retirement or disposal.

Disclosure

74. The disclosures below apply in addition to those in Ind AS 116. In accordance with Ind AS 116, the owner of an investment property provides lessors’ disclosures about leases into which it has entered. An entity that holds an investment property as a right-of-use asset under a finance lease provides lessees’ disclosures as required by Ind AS 116 for finance leases and lessors’ disclosures as required by Ind AS 116 for any operating leases into which it has entered.

Transitional provisions

Ind AS 116

84B An entity applying Ind AS 116, and its related amendments to this Standard, for the first time shall apply the transition requirements in Appendix C of Ind AS 116 to its investment property held as right-of-use asset.

Effective date

Appendix 1

Comparison with IAS 40, Investment Property

I. IAS 40 permits both cost model and fair value model (except in some situations) for measurement of investment properties after initial recognition. Ind AS 40 permits only the cost model. The following paragraphs of IAS 40 which deal with fair value model have been deleted in Ind AS 40. In order to maintain consistency with paragraph numbers of IAS 40, the paragraph numbers are retained in Ind AS 40:
2. Paragraphs 80-84A of IAS 40 which deals with the transitional provisions given in IAS 40 have not been included in Ind AS 40 as all transitional provisions related to Ind ASs, wherever considered appropriate have been included in Ind AS 101, First-time Adoption of Indian Accounting Standards, corresponding to IFRS 1, First-time Adoption of International Financial Reporting Standards.

4. IAS 40 permits treatment of property interest held in an operating lease as investment property, if the definition of investment property is otherwise met and fair value model is applied. In such cases, the operating lease would be accounted as if it were a finance lease. Since Ind AS 40 prohibits the use of fair value model, this treatment is prohibited in Ind AS 40. As a result, paragraph 6 of IAS 40 has been deleted in Ind AS 40 (see point 1(i) above). In addition, the expression ‘investment property under a finance or operating lease’ appearing in paragraph 74 of IAS 40 has been modified as ‘investment property under a finance lease’ in Ind AS 40.

5. As a result of prohibition of use of fair value model in Ind AS 40, there are some modifications in the wording of paragraph 26 (removal of the words ‘for the fair value model’), paragraphs 30 and 32 (Accounting policy), heading above paragraph 33 (‘Fair value determination’ instead of ‘Fair value model’), paragraph 40A, paragraph 56, paragraph 59 (deletion of portion relating to fair value model), paragraph 68 (deletion of a portion dealing with fair value model), heading above paragraph 74 (deletion of the heading ‘Fair value model and cost model’), 75(a) (disclosure of accounting policy) as compared to the wording used in IAS 40, heading above paragraph 76 (deletion of the heading ‘Fair value model’), heading above paragraph 79 (deletion of the heading ‘Cost model’) and paragraph 79 (deletion of the words ‘that applies the cost model in paragraph 56’).

7. The following paragraphs appear as ‘Deleted’ in IAS 40. In order to maintain consistency with paragraph numbers of IAS 40, the paragraph numbers are retained in Ind AS 40:

(i) Paragraph 3
(ii) Paragraph 6
(iii) Paragraph 9(b)
(iv) Paragraph 9(d)
(v) Paragraph 22
(vi) Paragraph 34
(vii) Paragraphs 36-39
Paragraphs 2 is amended and paragraph 64 is added.

Scope

...  

2 This Standard does not apply to:

(a) ...  

(e) right-of-use assets arising from a lease of land related to agricultural activity  

(see Ind AS 116 Leases)  

Effective date and transition

58-63 [Refer Appendix 1]  

64 Ind 116, Leases, amended paragraph 2. An entity shall apply that amendment when it applies Ind AS 116.  

Appendix 1

Comparison with IAS 41, Agriculture  

1 ....  

3. Paragraphs 59-63 of IAS 41 have not been included in Ind AS 41 as these paragraphs relate to effective date and transition which is not relevant in Indian context. However, in order to maintain consistency with paragraph numbers of IAS 41, these paragraph numbers are retained in Ind AS 41.
